

U. S. SPEEDILY RUSHING TROOPS TO BATTLE FRONT

1,000,000 Men Overseas Early in July

(By The Associated Press) WASHINGTON, June 15.—To give the allies a masterly superiority of numbers over the German invaders, American troops are being rushed to France as rapidly as transportation tonnage will permit. When the purpose will be realized cannot be now foretold but more than 800,000 men have been sent overseas and this number will be increased to 1,000,000 early in July.

These facts were announced today by General Peyton C. March, chief of staff, in paying tribute to the government's new policy of giving newspapers a weekly summary of battle conditions. The number of American troops now overseas and soon to go were disclosed by the general in explaining the situation which makes the need for American manpower urgent.

Facing a great map of the battle lines with every operation of the German offensive shown upon it, General March drew a graphic picture of as single gigantic campaign extending from Rheims to the sea where the allied lines have been battered back in four successive phases. The great wedge of assault has now increased the allied lines 66 miles from Rheims to Ypres.

"The four drives," he said, "one beginning March 21st, the next April 9th, the third May 27 and the present one beginning June 9th, are all part of the common scheme of offensive. Looking at this map we see the red dotted line running down to the Swiss frontier which represents the allied line when the Germans began their advance on March 21. Considering as a whole the succession of attacks the first penetrated this line some 36 miles into Picardy, the second some fifteen miles into Flanders and the third a distance of 38 miles further along the Marne. Under the present drive the line has been penetrated an average distance of from 5 1/2 to 6 miles. All of these drives have been stopped. The last advance is more to straighten out the German line than it is an advance considered as an military movement with a definite and important objective, like Paris, for instance.

"Taking the general location of the advance along the Oise, you will see that between the Picardy and Marne advance we have been holding a re-entrant angle and the most desirable thing which Germany could have at this stage would be a straightening out of the line. That is apparently what she has in mind in beginning her advance June 9. She succeeded in that, moving forward for a distance of six miles and the last information which we have indicates that west of Soissons she still is attacking with the idea of finally straightening out her line along the general front which I have indicated to you.

"The activities of the Germans are now toward Paris, but as for the importance of the objective, from a military standpoint, the capture of the channel ports would have a more immediate effect upon the prosecution of the war than a movement on Paris."

**AMBASSADOR SHARP VISITS HOSPITALS**

PARIS, June 15.—The American Ambassador William Graves Sharp visited the hospitals around Paris today and talked with the American wounded. Everywhere he found them treated with great care in American hospitals by American surgeons and American nurses. In one new Red Cross hospital tent near Paris, ice cream was being served to the wounded which it has been found the boys from the front line like the best. The French women had sent in a wonderful lot of roses and some of them had been presented to each man.

The ambassador talked with many of the soldiers. He told them when he had an opportunity to speak collectively how the people at home were watching their deeds of heroism and sent their admiration across the sea.

"I think," said the ambassador to The Associated Press correspondent, "that our people will be glad to know how well and how tenderly our boys are being cared for."

**NEED ALASKAN GOLD**

Washington, June 15.—The necessity for a maximum supply of gold from Alaska during the war was emphasized in a letter from Secretary McAdoo to Delegate Sulzer of Alaska which was read in the house today in the discussion of an appropriation for continuing work on the Alaskan railway. The house approved the \$5,250,000 appropriation for the Alaskan project after Delegate Sulzer had attempted to have it increased to \$7,250,000. Delegate Sulzer told the house that completion of the railroad was needed to bring gold from Alaska but other members insisted that the \$5,250,000 was sufficient for the project next year.

STATEMENTS

Official Communications Issued By Belligerent Countries Regarding War Situation.

**AMERICAN**

WASHINGTON, June 15.—The successful bombing by American aviators of a station and railroad tracks in a town behind the German lines was reported in General Pershing's communique last night. A number of direct hits were made and all the American machines returned.

Aside from patrol work there was no marked activity on the fronts held by American troops the statement said. It follows:

"There was no marked activity except that of patrols at points occupied by our troops. Last night our aviators bombed the station and railroad tracks at . . . A number of direct hits were made. All of our machines returned."

**FRENCH**

PARIS, June 15.—French troops have recaptured Courveret-Valseray, southwest of Soissons, an important strategic point from which the Germans have been endeavoring to debouch their troops. The war office announcement of this adds that ground also has been gained around Montgobert.

The text of the statement reads: "South of the Aisne a local operation enabled us to drive the enemy out of Courveret-Valseray which we occupied. We likewise enlarged our ground east of Montgobert. One hundred and thirty prisoners and about ten machine guns remained in our hands. On the rest of the front there is nothing of importance to report."

PARIS, June 15.—"The third of the enemy's great offensives has been mastered ever since the third day," says an official communique issued this evening. "When one stops to think that the Germans, electrified by their success on the Marne expected to overwhelm us, and advance along the road to Paris thru Compeigne which was their first objective," adds the communique, "the importance of June 11, which obliged them to stop can be seen."

For seven days the enemy was able to make progress in the offensive beginning March 21. Following May 27 his advance was interrupted in the same length of time. On this occasion the Germans who had lost their attack on June 9, had to give up after the battle of June 11.

"Our soldiers, inferior in number, have beaten the best assault troops of the German empire and inflicted upon them terrible losses and closed again the barrier. This result gives us confidence in the future."

**ITALIAN**

ITALIAN ARMY HEADQUARTERS, Friday, June 14.—By The Associated Press.—The attempted surprise attack by the Austrians in the Tonale region today was decisively repulsed by the Italians with artillery and machine gun fire and bayonet charges. The frequent encounters were spirited notwithstanding the cold and the blinding darkness of the night. This action was an aftermath of the one three weeks ago when the Italians took the Paradiso Pass for the purpose of protecting Val Camonica and the Oglio river and the westernmost entrance to the Italian plains.

**BRITISH**

LONDON, June 15.—The war office tonight issued the following statement concerning operations in East Africa:

"Between June 3 and 10 the enemy force withdrew southward from the Lurio river into the difficult hill country around Malena. Our pursuing columns after a number of minor encounters with enemy detachments entered Malena unopposed June 12, the enemy having retreated further south toward the Lignya river."

LONDON, June 15.—British troops in a local operation have captured the German forward positions on a front of two miles north of Bethune, according to Field Marshal Haig's report from British headquarters in France tonight.

The text of the statement reads: "The number of prisoners taken by us in the successful operations carried out last night north of Bethune is 196. We also captured several machine guns. As a result of this attack our troops have gained possession of the enemy's forward positions on a front of two miles, securing all our objectives. In the fighting reported this afternoon north of Nissey forest the enemy by a local attack carried out under a heavy bombardment succeeded in driving in three of our advanced post west of Vieux Berquin.

"The hostile artillery was active this morning east of Arras and has shown some activity this afternoon north of Bethune."

**GERMAN**

BERLIN, June 15.—Via London.—The evening report from general headquarters says:

"The official communication from general headquarters today says: "Army group of Crown Prince Rupprecht: There has been lively reconnoitering activity. We brought in prisoners southwest of Meris."

"In the evening artillery and

FIRST GERMAN PLANES VICTIMS OF AMERICANS

American Aviators Shoot Down First German Plane to Fall on French Soil.

(By The Associated Press) Washington, June 15.—How Lieutenant Alan F. Winslow and Douglas Campbell, taking the air together shot down the first two German airplanes to fall victims to American aviators with General Pershing's expeditionary forces is told in the personal diary of Lieutenant Winslow made public tonight by the war department. The officers were decorated by the French government and later proposed for the American distinguished Service Cross.

The account which disclosed that the two machines were sent down within a minute of each other and almost on top of an American airplane, was not written for publication but the department explained that because of its historical and destructive value it was decided to make it public.

Lieutenant Winslow who was the patrol leader wrote that he and Lieutenant Campbell, since designated of the first American emergency duty on Sunday morning, April 14 last, when information came that two German planes were about 2,000 meters above a city only a mile from the airfield. The aviators rushed to their machines and were soon off, Campbell in the lead. Winslow, however, was first to get his man.

"I had not made a complete half turn," Lieutenant Winslow wrote, "and was at about 350 meters when straight above and not more than a hundred yards away, I saw a plane coming toward me with huge black crosses on its wings and tail. I was so furious to see a Hun directly over our aviation field that I swore out loud and violently opened fire. At the same time to avoid my bullets he slipped a left hand reversal and came down, firing on me. I climbed, however, in a right hand spiral and slipped off coming down directly behind him and 'on his tail.' Again I violently opened fire. I had him at a rare advantage which was due to the greater speed and maneuverability of our wonderful machines. I fired twenty to thirty rounds at him and saw my tracers entering his machine. Then in another moment his plane went straight down in an uncontrolled nose dive. I had put his engine out of commission."

"I followed in a straight dive firing all the way. At about six feet above the ground he tried to regain control of the machine but could not and he crashed to earth."

"I darted down near him, made a sharp turn by the wreck to make sure he was out of commission, then made a victorious dash over him and climbed up again to see if 'Doug' needed any help with the other Hun. I had caught a glimpse of their combat out of the corner of my eye. I rose about 300 again to see 'Doug' on the tail of his Boche. His tracer bullets were passing thru the enemy plane. I climbed a little higher and was diving down on this second Hun and about to fire when I saw the German plane go up in flames and crash to earth. 'Doug' had sent his Hun plane down one minute after I had shot down mine."

"Mind you the fight took place only three hundred meters up in full view of all the ground and in the nearby towns and it took place directly above our aviation field. These are remarkable facts, for none of our majors who, with the French army since 1915, has shot seventeen machines never had one land in France."

**BROOKLYN PROTEST SUSTAINED BY TENER**

NEW YORK, June 15.—President Tener of the National League today sustained the protest of the Brooklyn club and the game between the St. Louis and Brooklyn teams, at Brooklyn June 3, has been ordered replayed.

In the sixth inning of that game Baird of St. Louis was hit by a fly to center. Baird touched third base but realized the possibility of a catch and ran back toward second. The ball was not caught and Baird cut across the diamond and scored. Umpire Rigler allowed the run on the ground that the runner was not required to touch third base a second time.

President Tener decided that when Baird retraced his steps toward second and again tried for home he was "advancing" and it was necessary for him to touch all bases.

mine throwing duels revived on both sides of the Somme.

"Army group of the German Crown Prince: Southwest of Noyon the infantry activity was limited to local engagements. The intensity of the artillery fire decreased. South of the Aisne the increased artillery fire continued. Several attacks which the enemy launched in the forest of Villers Coterets were repulsed. The number of prisoners captured in recent battles south of the Aisne has increased to 48 officers and more than 2,000 men.

"Army group of General von Eebhorn: Russian bands about ten thousand strong coming from Leisk and landing on the north coast of the Sea of Azov and advancing to attack Taganrog, were destroyed. Some of the enemy who endeavored to escape in boats and rafts were shot down in the water."

AUSTRIANS BEGIN GREAT OFFENSIVE ON ITALIAN FRONT

Begin a Heavy Bombardment On All Sectors

(By The Associated Press) ROME, June 15.—The Austrians began a great offensive at seven o'clock this morning on the front from the Asiago plateau to the sea.

This announcement was made in the chamber of deputies today by Premier Orlando, who added: "Our troops are everywhere resisting magnificently."

Nearly the whole of our front is engaged as the offensive extends from the Brenta, from the Breno to the Piave and along the Piave everywhere, involving the Asiago plateau, the Mount Grappa sector and the plain."

Describing the operations the premier said:

"A very violent bombardment began at three o'clock and at seven o'clock an infantry attack was launched along the whole line. The latest news which has reached me summarizing the situation at one o'clock is that our troops have offered magnificent resistance."

A message sent from the front to the premier concludes as follows:

"A comparison of all reports received shows that the offensive was pressed only in the first zone of resistance, and not even at a few points has it obtained the effect which the enemy must have hoped for from his powerful bombardment and the enormous effectiveness launched—an attack against which our troops are resisting magnificently."

**LULL IN POLITICAL SITUATION IN IRELAND**

Agitation Against Conscription Relaxed.

Dublin, June 15.—By The Associated Press.—At present there is somewhat of a lull in the political situation in Ireland. Agitation against conscription has relaxed in the face of government proclamation calling for voluntary recruits and no attempt to apply the draft is expected before October and then only in the event of conspicuous failure to get the necessary number of enlistments.

Suppression of illegal drilling proceeds daily and it is greatly helped by the government's warning that if the drilling continues the counties affected will be declared "special military areas."

The Irish people have been quick to realize that an extension of such areas would greatly facilitate the application of conscription and advice is being given to young men to avoid assembling themselves in military formation.

**J. A. O'LEARY ARRESTED IN SARA, WASHINGTON**

NEW YORK, June 15.—Jeremiah A. O'Leary, a fugitive from justice since the eve of the date set for his trial on a charge of violating the espionage act by publication of seditious matter in the anti-British periodical Bull, and later indicted for conspiracy to commit treason, was arrested here tonight.

O'Leary was found Wednesday in the remote hamlet in Washington, about 27 miles north of Portland, Ore. No details were made public concerning the pursuit.

Announcement of his capture marks another dramatic episode in a case which already has many sensational developments. His brother, John J. O'Leary and Arthur Lyon, a business associate, were placed on trial in federal court yesterday under an indictment charging them with having aided him to escape from jurisdiction of the court.

The defendants, four other Americans and two German subjects including one woman, Madame Maria K. de Victoria, were accused, among other things of conspiring to send abroad information of military value planning destruction of American ships, seeking the destruction of quick silver mines in this country to hamper manufacture of munitions.

**Arrested Thursday**

Vancouver, June 15.—Jeremiah O'Leary was arrested by federal authorities at Sara, Clark county, Wash., last Thursday. It was learned here tonight on information given the federal officials by a man employed by O'Leary on a three acre chicken farm at Sara, which O'Leary had rented on coming here in mid-March.

O'Leary after arriving in this section attracted almost no attention. Under an assumed name he raised chickens and tilled a garden on the little plot of ground. On Tuesday of last week a man who was working for him, also a stranger in Clark county, appeared at the sheriff's office at Vancouver and said that he had learned something about his employer that federal officers

OVERSEAS CASUALTIES

(By The Associated Press)

WASHINGTON, June 15.—The army casualty list today contains 81 names divided as follows:

Killed in action, 8; died of wounds, 10; died of accident, 1; died of disease, 6; wounded severely, 52. Wounded degree undetermined, four.

Two Illinois were among the severely wounded, Private James Jacob, Chicago; Private Tom Manckie, Chicago.

Washington, June 15.—A Marine Corps casualty list issued today gives 63 names, divided as follows:

Killed in action, 8; wounded severely, 55.

Among officers killed in action was Lieutenant Orlando C. Crowther, Canton, Ill.

Two Illinois were wounded in action were Corporal John D. Peoples, Chicago; Private Alphonsus Ploski, Chester, Ill.; Private Tony L. Gandy, Georgetown, Ill.; Private Joseph B. Kelly, Carrollton, Ill.; Private Walter E. Land, Chicago, Ill.

**"DOWN WITH THE WAR" FLAG OF I. W. W.**

Flag Used in Butte, Mont., Given as Evidence in Government Trial of I. W. W. Members.

Chicago, June 15.—A red calico flag lettered "Down with the war" and a number of letters were introduced in evidence today by the government in the trial of 110 I. W. W. members for violation of the espionage law. The flag was used when the I. W. W. attempted to hold an anti-draft parade in Butte, Mont., June 5, last year but were prevented by the police and the letters related to strikes and citizenship matters.

A general strike to interfere with the steel business was talked of for this year, according to a letter from W. H. Haywood, general secretary of the I. W. W. to Bert Lorton, a local agent, stating in reference to one of numerous strikes:

"I think the strikers should be gotten back to work quietly, having them pledged for a general strike at a future date and had a general strike in the spring when they will injure the steel trust."

"What gets me is why I. W. W. should wish to take citizenship papers," wrote J. A. McDonald, editor of the Industrial Worker of Seattle, to F. J. Picary, a defendant.

"A strike in Tucker is in full blast," wrote Sam Scarlett, of Akron, Ohio, to Vincent St. John of Carrazona, N. M.

"More than one hundred on the picket lines. The work is for the D. & R. G. railroad and is supposed to be finished by September 1. The entire shops of the D. & R. G. burned to the ground last night. The biggest fire Salt Lake City ever had. I sure am having one strenuous time now watching the street meetings, keeping pickets going, shipping 'sabotage' on to the job and drawing good collections."

The trial will be resumed Monday morning.

**ENTIRE WAR A FAMILY AFFAIR—DR. COHN**

Scene Caused in Reichstag By Statement of Socialist Member.

Amsterdam, June 15.—A scene was caused in the reichstag yesterday by Dr. Cohn, a Socialist member, when, according to the Cologne Gazette he declared: "The border states have become a Golgotha where lie bleaching the bones of the best in the land who have been slaughtered by the misled German soldiers." An uproar followed this declaration and Deputy Cohn was called to order, but he continued:

"The entire war has become a family affair of the Hohenzollerns. It is possible that we may probably remain the only warriors in Europe and the entente will have to submit but Europe will have become a continent of beggars and we shall all suffer the consequences of such a peace."

Lieutenant General von Stein, Prussian minister of war and state in reply asserted:

"It is not one family in this country which is waging war, but the German people under the kaiser, is waging war for its existence."

According to another account of the excited debate, several independent Socialists shouted: "Robbers! Murderers!" When Dr. Cohn said that people were being "slaughtered" by the misled German soldiers.

Members of the center and the conservative parties thereupon left the chamber, it is reported.

**SHIPBUILDING DRAFTSMAN ARRESTED YESTERDAY**

Philadelphia, June 15.—On information from Washington, E. J. Tully, a drafts man employed by the emergency fleet corporation was arrested here today on a charge of stealing plans for concrete ships. He was held in \$25,000 bail by a United States commissioner for a further hearing. He denies his guilt.

ficers wanted to know. The sheriff's office directed him to the federal officers and the arrest on Thursday resulted.

3,000,000 MEN UNDER ARMS BY AUGUST FIRST

Provost Marshal Tells Senate Military Committee

(By The Associated Press) WASHINGTON, June 15.—Three million Americans will be under arms by next August 1, the senate military committee was told by Provost Marshal General Crowder.

Extension of the age limits in the army draft will be necessary, General Crowder said if the present rate of draft calls is continued. He estimated that all the men in Class One would be exhausted soon after next January 1.

General Crowder said that 1,347,000 of the 4,428,000 men placed in Class One already have been called to the colors. He estimated that some 400,000 additional men for the first class will be secured from the men who registered last June 5th and that another 200,000 will be added by the reclassification of men in the re-examination of the questionnaires now being made.

Requisitions from the draft to complete the 3,000,000 total by August 1, General Crowder said, have been made. Of these 2,000,000 will be draft registrants and the others volunteers and national guardsmen.

"Everybody thinks there will be heavy calls during the first six months of 1919," was a significant statement made by General Crowder. General Crowder approved a general principle of the bill introduced by Senator France of Maryland, extending the registration ages from 18 to 45 years. He did not, however, approve time age limits fixed in the bill. After outlining the plans of the war department for additional calls, General Crowder said that at the present rate the class one will be exhausted by the end of the present year and that unless the age limits are extended and another registration held, it will be necessary early next year to call men in class two and probably soon thereafter in class three. Final figures at classification of the first registration totalling 8,689,447 were shown to have been divided as follows:

Class 1	2,428,729
Class 2	509,666
Class 3	427,870
Class 4	3,483,326
Class 5	1,839,856

General Crowder submitted figures showing the progress of the draft this year. A total of 1,347,512 men, all from Class One will have been called by the end of July divided by months as follows:

January	23,288
February	83,779
March	132,484
April	174,377
May	360,230
June	283,354
July	290,000

**BIGGEST TAX DAY IN NATION'S HISTORY**

Millions of Dollars Paid Into District Collectors Today

Washington, June 15.—This was the biggest tax gathering day in the nation's history. Millions of dollars were paid into the hands of collectors today. Millions of income and excess profits assessments from which the government raises most of its internal revenue were paid to collectors in the 64 districts in such numbers that it will take two weeks to tabulate them.

Persons who failed to pay by tonight as required by law, will receive next week notices of their delinquency, with demand that they pay before June 22 in order to avoid penalties imposed after that date. Most of the collectors it is said, will waive delinquency of checks are received next Monday or Tuesday. Nearly four million separate payments have been made up to tonight it is estimated. The payments will not be fully analyzed for a year.

Offsetting the big payments in a small degree was the payment today of the second semi-annual interest on the first Liberty Loan. This amounted to about \$4,000,000. Reports indicated that many holders of the first bonds failed to clip the coupons and turn them in for payment. Thousands exchanged interest coupons for new savings stamps, thus re-investing their bond earnings.

**MAKE FINAL TEST TO DETERMINE SANITY**

WAUKESHA, Wis., June 15.—Drs. Albert Sauthoff, Richard Dewey and H. E. Bradley made the final examination this afternoon to determine the sanity of Grace Lusk, convicted of murder in the second degree for killing Mrs. Mary N. Roberts. After spending three hours in her cell the physicians gathered in the sheriff's office for a long consultation. They refused to make any statements regarding their findings. Their report will be made to Judge M. L. Lueck, on June 18. Miss Lusk complained of a headache, but made no objection to the examination.

WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

The long waited Austrian offensive against the Italians has begun. On the Italian front for a distance of from seventy five to a hundred miles Austrian troops and heavy artillery are endeavoring to break down the resistance of the Italians who are aided by French and British forces.

The Italian premier Vittorio Orlando, announced in the chamber of deputies that the Italian troop were everywhere "resisting magnificently."

The last great Austro-German offensive began in October, 1917, rolled back General Candorna's line from the Isonzo front and more than a million enemy troops participated in this operation and the Italians were able to stay the advance. About the middle of November the Piave battle began along a ninety mile front in Northern Italy and French and British troops were hurried to re-inforce the shaken Italian army. The crisis was passed about the first of December and since that time there has been no fighting in which the Italians and their allies carried out many successful counter-attacks.

There have been insistent cries from Germany for Austrian action along the Italian front, to co-ordinate with the German offensive in the Western zone and for months past the Italians have been preparing for just such a blow as apparently is now being struck. The Italian army has been reequipped and General Diaz has succeeded General Cadorna as the commander-in-chief. The present battle line extends from Asiago to the sea.

Grave events are reported to be impending in Austria, according to unconfirmed advices from Spain and Holland. It is said that rioting has been going on in Vienna and matters have come to a critical stage.

How serious the situation has become is not yet known. There have been outbreaks in various parts of the country notably in Bohemia and Moravia and the tension between Austria and Hungary has been one of the features of the new era emanating from the dual monarchy for some time.

Checked in their plunge against the French positions from Montdidier to the Oise, the Germans have not resumed their offensive on the western front. There have been patrol encounters at various points with the allies in proving their positions, notably in the Villers-Coterets region southwest of Soissons.

The inactivity of the infantry however, has given place to heavy bombardments along the front. In this work the American forces have had a part. Angered by a gas attack against them by the Germans the Americans launched thousands of gas shells against the enemy. The Americans in the Marne and Picardy fronts have also given the Germans no rest from patrol incursions.

It is believed in Paris and London that not many days will elapse before the Germans begin a new assault against the allies. It is known that Crown Prince Rupprecht of Bavaria has large reserves who are somewhere along the Somme and Flanders fronts. Opinion is divided as to the point against which the blow will be struck, Paris believing that the Germans will continue their thrust toward the capital either by a continuation of the fighting west of the Oise or a new assault further toward the Marne.

London however believes that the German drives along the Aisne and east of Montdidier to draw the allied reserves to those theaters of the war and then hurling the decisive blow either at Amiens or against the Flanders salient in the hope of reaching the channel ports.

Despatches from the front say that the situation is tense along the whole line and it is probable that the Germans when they strike will find the allies ready to receive them.

The official report from the Italian war office speaks of the growing intensity of artillery fire from the Lagarina Valley to the sea. This includes a part of the mountainous country and the line along the Piave river.

When the Austrians concentrated forces on the Italian front following their withdrawal from Russia, it was believed that an attack against Italy was impending.

When this blow was not struck it was said that the reason for the delay was the internal conditions in Austria. Later it was stated that the Austrian offensive had been held in abeyance until after the success or failure of the German offensive in France was apparent. The German drive while it has gained tactical positions has not brought about a decisive result and it may be that the Austrians are preparing to attack.

**NEW YORK SYMPHONY TO TOUR FRANCE**

New York, June 15.—With their salaries paid by Harry Harkness Slagier, president of the Symphony Society of New York, Walter Dermosch and fifty musicians have sailed for France to make a tour of the American rest and concentration camp in that country under the direction of the overseas division of the Y. M. C. A. according to announcement here tonight.

MEN NEEDED TO MAN GREAT FLEET OF BATTLESHIPS

Secretary Daniels Advises Need of 40,000 Men

(By The Associated Press) WASHINGTON, June 15.—To man the great fleet of warships which the United States will turn out during the fiscal year, the house naval committee was advised today by Secretary Daniels. In asking for an amendment to the naval appropriation bill increasing the enlisted personnel from 87,131,485 men, Mr. Daniels admitted letters from Admiral Benson, chief of naval operations and Rear-Admiral P. H. Buxton, chief of the bureau of naval construction in detail that the increase is necessary.

The correspondence revealed that warships are being turned out faster than they can be manned, and that should there be change in naval tactics or a change in the defense of the navy would be seriously capped in handling the against an enemy.

Admiral Palmer said in a letter that a shortage of officers of higher grade should be up, pointing out that American destroyers now are operated the war zone without a dedicated commander other than British officer, Admiral Buxton. The submarine chaser for foreign waters is commanded by a captain, the admiral whereas there should be a one rear-admiral and two two for this force.

The two American division armored cruisers also are out a flag officer and the no flag officer for the division of super-dreadnaughts will be added to the navy this year, Admiral Palmer pointed out that the admiral in command of the American fleets should have admirals as chief of staff.

"Merely to man our fleet and to make our organization efficient," Admiral Buxton's letter said, "we have immediately 27 additional rear-admirals and 30,000 more men in addition to those we have now."

Admiral Palmer said the fleet of 12,146 men will be needed to man the fleet which will be turned out the next fiscal year ending 1, 1919. This force he divided as follows:

For battleships	10,000
Cruisers	10,000
Patrol boats	10,000
Sea going tugs	10,000
Submarines	10,000
Fleet fuel ships	10,000
Gunboats, ammunition ships, etc.	10,000

On last April he wrote men were required for the navy as follows:

On battleships	10,000
Cruisers and monitors	10,000
Gunboats	10,000
Destroyers and torpedo boats	10,000
Supply vessels	10,000
Naval transports	10,000
Tugs	10,000
Yards, stations, hospital ships, etc.	10,000
Submarines	10,000

With a force of 131,485 he estimated that these men a surplus over those actually duty of 5,864 to replace wounded, on sick or on leave.

**NATIONALISTS RETURN TO PARLIAMENT**

DUBLIN, June 15.—By The Associated Press.—The members of the Nationalist party decided to return to parliament the week after next.

The Irish Nationalists arily withdrew from attendance in parliament as a protest at the government's proposal to conscription in Ireland.

**TRAIN STRIKES AUTO OFF**

Galesburg, Ill., June 15.—Otto Tucker, aged 10 was cut off and six other members of a party of eight boys and were severely injured at W. Field today when the riding in which all were riding struck by a Santa Fe freight engine. The party was returning from the Spoon River "swim hole."

ATRIOTISM MONG THIEVES.

A story told by the U. S. food administration and mentioned in Wallace's Farmer, suggests that the American people are getting overly used to flour substitutes, and furthermore, that even buns these days are patriotic. A council bluffs grocer, upon opening his store one Monday morning, discovered that a burglar had gained entrance by breaking through a window in the side of the building and had stolen five sacks of wheat flour. Much to the grocer's chagrin, upon entering the store the following morning, he found that another entrance had been forced during the night, and five sacks of corn meal had been moved. The grocer's explanation concerning these thefts is that the burglar—upon finding that he had disregarded the fifty-cent rule—was so conscience-stricken that he could not rest until he had confirmed to the Food Administration's ruling of one pound of substitute to every pound of wheat flour.

CHURCH QUESTION.

In the churches of Jacksonville today ministers will make reference from their pulpits to the

coming bond election, for the ministers properly consider this question of water supply one that intimately concerns their churches and congregations. The time was when ministers would not have considered it a matter of church concern to discuss questions of public policy, but in these latter days the scope of church interest has widened and ministers have come to know that those things which make for bettered conditions in the whole community will also make their churches more enthusiastic and useful. Aside from other considerations, the ministers doubtless remember that it was only a few months ago that the water department of Jacksonville asked them to temporarily close the churches in order to save the water which would otherwise be consumed in boiler and sanitary uses about the church. This water question is one which closely touches the life and interest of every resident of Jacksonville.

WOMEN IN NEW LIVES OF WORK.

Every day sees some new occupation is open to women and in all but rare instances new workers are proving their capability and faithfulness. The changes are noticeable more especially in the cities, although there are a number of local instances where women are now performing the work formerly considered only suited to men. In one Jacksonville meat market a young woman now waits on customers and seems to serve them just as readily as her male predecessor. The Oil City Derrick tells of the successful experiment of the Riverside Oil Co. of this state in placing its forty service stations in Chicago in charge of women. These young women take the places of men who are drafted for the war. The uniforms, worn by the ladies are specially designed and made of blue cloth with the trade mark of the company emblazoned on the coat. They are employed ten hours a day, the

same as the men, whose places they took, and they receive the same wages. The company has found that the women give entire satisfaction. Women now operate the filling stations of large oil companies in Chicago, Cleveland, Buffalo, Indianapolis, Kansas City and St. Louis.

THE EXPENSE OF TRAVELING.

The higher passenger rates now charged in accordance with Director McAdoo's order are likely to lessen passenger traffic. Of course that is the purpose of the government, for it is desired not only to have greater revenue from passenger service but also to reduce the traffic and so provide for a freer movement of freight. Speaking locally, a passenger who takes a Pullman from Jacksonville to Chicago must pay practically \$10.50 for the service, whereas \$6.32 formerly covered the bill.

Figuring other trips in like proportion it is easy to see how much more expensive railroad travel is today than was true a few weeks since. Someone has suggested that the automobile manufacturers should be very gleeful over the increased passenger rates, because the higher railroad transportation cost will naturally turn people toward automobile travel, if three or four passengers can travel 18 or 20 miles on a gallon of gasoline.

That will be all right as long as it lasts but there are persistent rumors of the government's intention to prohibit the use of gasoline for pleasure cars, and there is another rumor that the gasoline price is also to be increased. If that happens about the only course left for the people will be to stay at home except in the case of urgent business calls, and that is what the government wants.

THE EXTENDED DRAFT AGE.

Judging from President Wilson's previous statements, it seems probable that he will approve the plan of extending the draft age so as to include men from the ages of 18 to 45. With the possibility of a long war facing this country, the change in the draft law age is reasonable. Doubtless the purpose is to get into the army service a large number of unmarried men without dependents who are beyond the present draft age, and still another purpose is to have a registry of men of mature years and strength so that their labor may be directed along the most useful lines, if the men are not needed for direct military service. The proposed change in the draft law is merely a continuation of the policy of insisting that all able-bodied men in the country must either work or fight.

ARGUING FOR THE SELF EVIDENT.

The rain which fell Saturday was badly needed. It was fortunately timed for those people who feel that the water supply question of Jacksonville is settled every time there is sufficient water in Mauvaisterre creek to flow over the dam. A large amount of faith in providence is commendable but certainly the time has come for Jacksonville people to take the definite step which will make certain a water supply available, in times of drought as well as in the times of the normal rainfall.

Trying to present arguments favoring ample pure water supply seems a superfluous sort of thing for everybody concedes that a good water supply is not only a most desirable adjunct for a city but is really a necessity if that city is to continue healthy and safe and to have any possibility of growth.

Gardens and fields and farms all need a water supply, and it is not a bit more necessary for the fields and gardens than it is for people and cities. If you started out to convince the farmer that to have the right results with crops it was necessary for him to plant where the rainfall was sufficient or where moisture can be provided by irrigation methods, he would think you had lost your mind. It is a self-evident proposition, so why argue about it? But the strange fact remains that there are some people who do not seem to fully realize the relationship between health, safety and city growth and the water supply.

But there are certainly enough people in Jacksonville who do understand this relationship to cast the favorable votes at the election

You Should Vote for Water Bonds BECAUSE—

The plan for the reservoir has the approval of engineers representing three state departments.

The plan is a report and recommendation of a committee appointed at a citizens' mass meeting authorized to act in conjunction with the city council.

The reservoir capacity and the filtration plant will assure a supply of water both ample and pure.

The state of Illinois is vitally interested in the proposal and must provide a private supply for the state institutions here unless Jacksonville makes provision.

The bond ordinance itself makes provision for joint supervision of the work and expenditure of the money by city officials and the citizens' committee.

The written pledge is on record that if bonds are authorized they will not be issued unless satisfactory leases are made with property holders.

Insurance rates were raised the past year because of an inadequate supply. The way to secure lower rates is to provide fire protection.

Scarcity of water in past years has been a most serious menace to the health of this community and many distressing cases of illness are directly traceable to the lack of a pure water supply.

The increased revenue will more than pay the interest and will refund the bonds in a given period.

The ordinance provides that money earned from the water supply shall be devoted to no other purpose than the expense and extension of the department.

next Tuesday which will turn the issuance of \$75,000 in bonds provide for storage system of water which will be adequate for Jacksonville and her citizens.

GOD'S SERVICE FLAG.

There was a little story in the public prints the other day. It told about a small boy who was walking down Superior Street with his father when he noticed the planet Venus blazing brightly in the western sky. "Look, Daddy!" he exclaimed. "God has hung out His service flag." He must have a boy in the war!

It was evening, and looking out of the window then, it seemed that God's service flag had not only one but ten million stars; and the thought came that God had not only one but ten million boys in this war!

Nearly every one in the ten million has a mother and a father and perhaps sisters and boy brothers, and maybe a wife and a little dimpled baby or two!—(The Clyde Diamond.)

THE FOUNDER OF THE RED CROSS.

Charles Downer Hazen, lecturer and historian, has written for the July Red Cross Magazine a most eminent article on Henri Dunant, the man whose vision and years of work led to the founding of the Red Cross.

Out of the observations and experiences of a crowded and heart-sickening week (Battle of Solferino—June 24, 1859), out of the scenes of bitter, pitiless, unavailing distress a thought gradually crystallized in the mind of Dunant which was to be the germ of a great work of beneficence. He saw that the medical service of no army could ever be adequate to the demands of a great battle; he also saw that no sufficient service of relief could be improvised on the spot at the moment of emergency itself. As there were no signs that wars were soon to cease among men, it was wise to draw the obvious lessons of experience and prepare methodically, in times of peace, to meet the problems that wars inevitably bring.

Don Cowgar of the vicinity of Strawn's Crossing was a caller in the city yesterday.

MRS. FLORENCE MILLER DIES BY OWN HAND

Suicides By Taking Carbolic Acid at Home Near Orleans—Ill Health is Cause of Act—Coroner Rose Held Inquest.

Dependent because of ill health Mrs. Florence E. Miller suicided by taking carbolic acid at her home four miles southeast of Orleans about 4:15 o'clock Saturday afternoon.

After she took the poison her husband, Myron Miller, J. T. Holmes and J. H. Gassaway placed her in a vehicle and started for Jacksonville. She died when a mile away from the residence and the body was taken back and Coroner Rose notified.

The coroner went to the residence and held an inquest. The testimony of the husband, Myron Miller, his mother, Mrs. Geneva Miller, J. T. Holmes and J. H. Gassaway was heard. Threatened to Take Life Often. The husband and mother-in-law both testified that Mrs. Miller had often complained of feeling badly. Mrs. Geneva Miller said her daughter-in-law had frequently said she was tired of living and threatened to take her life. She seemed to brood over the matter and only a few days ago told of dreaming that she took poison.

The husband Myron Miller, said that his wife had stepped into her room to get ready to come to town. He followed her and she asked him to step outside a moment. He complied but went into the room a few minutes later. He saw her with a bottle in her hand and she took the contents before he could reach her.

With the assistance of his mother he carried his wife to the porch where emergency measures were taken. J. T. Holmes and J. H. Gassaway were in a nearby room and were called. Their testimony was mainly as to the condition of Mr. Miller when they first saw her.

Jury's Verdict. After hearing the testimony the jury, which was composed of William Davenport, foreman; Mary W. Holmes, Nelson Thomas, John M. Carroll, J. H. Reynolds and Henry Ruble, clerk, returned a verdict that Mrs. Miller came to her death by taking carbolic acid with suicidal intent.

Mrs. Florence Miller was the daughter of Joseph McCarty of this city and was born and reared here and was 22 years of age at the time of death. She was united in marriage five years ago to Myron Miller. Besides her husband, she is survived by one son one and a half years old, and one daughter, four years old. She also leaves her father and one sister, Mrs. Charles Parnell and one brother, Leo McCarty, both of Detroit, Mich. Two aunts, the Misses McEvers of this city, also survive.

The time for the funeral has not been set.

MEN WANTED

Young men, middle age men, old men, to learn the Ford business.

C. N. PRIEST, The Ford Man.

THE FLAG DAY CEREMONIAL.

The D. A. R. Flag Day ceremonial on the college campus Friday was the occasion of various complimentary comments yesterday. The program as planned was a fitting observance of the day and also a worth while centennial contribution. Miss Elie Trabue is the regent of Rev. James Caldwell chapter, D. A. R. and was fortunate in the election of committee and in the union of interests that the members had in preparing for the event.

L. F. O'DONNELL SECURES ORDER FOR 3 PAIGES

L. F. O'Donnell yesterday closed a contract for the agency of Paige automobiles with Wallace and Alderson at Virden, Ill. They will get a carload shipment at once from the factory.

TO VISIT BROTHER IN NEW YORK

Otto Speith left last evening for Long Island, New York, where he will visit with his brother who enlisted in the photographers division of the aviation section. He is now connected with the 1st Aero Squadron, Hempstead Field. Ben H. Nunes will be in charge of the studio while Mr. Speith is on his trip.

Henry Baunmaster helped represent Buckhorn in the city yesterday.

## CITY AND COUNTY

C. H. Dean of Manchester was a visitor with city people yesterday.

B. D. Cade was added to the Murrayville contingent in the city yesterday.

Edward German helped represent Buckhorn in the city yesterday.

Harrison Davenport of the vicinity of Pisgah called in the city yesterday.

Mr. and Mrs. C. M. Strawn of Alexander were city shoppers yesterday.

Henry Strawn and wife were down to the city yesterday from Strawn's Crossing yesterday.

E. O. Green of the east part of the county was a city caller yesterday. He reports a good rain in his vicinity.

J. G. Dowell helped represent Franklin in the city yesterday.

Frank Green was down to the city from near Strawn's Crossing yesterday.

Harry Trotter was a traveler from Pisgah to the city yesterday.

Wm. Wilding of Strawn's Crossing made a business trip to the city yesterday.

Edward Clemens of Murrayville was among the travelers to town yesterday.

Wm. Casey was up to the city from Woodson yesterday.

Thomas O'Connell of Buckhorn was added to the list of city callers yesterday.

Dr. J. G. Franken of Chandler-ville was among the city callers yesterday.

C. E. Ballard made a business trip from Mercedosa to the city yesterday.

Mr. and Mr. Lester Kinnett of Prentice were city shoppers yesterday.

G. L. Eagle was a city arrival from Concord yesterday.

T. E. Rea of Murrayville was looking after his interests in the city yesterday.

E. H. Brown of Roodhouse was a traveler to Jacksonville yesterday.

Michael Ryan of the vicinity of Alexander was transacting business in the city yesterday.

Frank Strickler of the region of Shiloh was a caller on city people yesterday.

R. W. Emerson of Strawn's Crossing was a city caller yesterday.

Felix Gordon made a business trip from Murrayville to the city yesterday.

Fred Ranson of the region of Lynnville was a traveler to the city yesterday.

H. L. Raines of Carrollton made a business trip to the city yesterday.

H. A. Patton of Grafton was among the arrivals in the city yesterday.

Lee Mason of Shiloh was among the business men of the city yesterday.

Jesse Smith was a traveler from Kinderhook to the city yesterday.

W. L. Leach of the vicinity of the Mund called on city people yesterday.

H. M. Summers made a business trip from Peoria to the city yesterday.

Leonard Hill was a city arrival from Prentice yesterday.

Charles Loughary of the northwest part of the county visited the city yesterday.

Thomas Oxley of the Durbin neighborhood was a traveler to the city yesterday.

Samuel Jones and son made a trip from Murrayville to the city yesterday.

William Gorgas and wife were over to town from Valley City yesterday.

Mr. and Mrs. George Clowder and Edward Raines and wife were auto travelers from White Hall to the city yesterday and were the guests of Mr. and Mrs. Al Stewart, 523 Reid street.

Thomas O'Donnel Jr. has returned to the city after an absence of some months and will be at home now to his friends.

Michael McGraw of Murrayville was among the visitors in the city yesterday.

James Donovan of Pearl is enjoying a visit of a day or two with friends in the city.

Harry McGhee of the vicinity of Shiloh was added to the list of city callers yesterday.

William White of Murrayville was among the travelers from that place to the city yesterday.

H. M. Zirkle of the north part of the county was attending to affairs in the city yesterday.

A. C. Hughes of the north part of the county was transacting business in the city yesterday.

Mr. and Mrs. Luther Crawford motored from Pisgah to the city yesterday.

Mrs. E. E. Frye is able to be out again after an illness of some six weeks. She is a bit weak but feels she is on the high road to full recovery.

Edgar Jones, a prominent and well known citizen of Waverly was in the city yesterday and made the Journal a pleasant call.

Don Johnson and wife of the east part of the county were city callers yesterday.

E. B. Coe of Antioch was a city caller yesterday.

John Phillips of the vicinity of Grace Chapel was a city arrival yesterday.

Lee Mason was down to the city from Sinclair yesterday.

Mrs. Carl Ridder of Quincy was a Saturday visitor in the city.

L. J. Salzenstein of Virginia was called to the city on business yesterday.

Mr. and Mrs. F. D. Gartner of Linus, Mo., are visiting friends in the city.

Miss Nellie Eppler has arrived in the city and will spend part of the summer at her home on West State street.

Richard Leake was in the city yesterday and said he had forty acres of wheat, half smooth and half bearded and thought he would begin cutting the corn by Tuesday or Wednesday and go right on thru the whole crop which bids fair to yield well.

Mrs. Hardin Cox of Joplin, Mo., has given her two sons to the cause; H. Harold, the older is a second lieutenant and the other is a private.

J. H. Johnson of Quincy was a city shopper yesterday.

Mrs. James Guinane of Chapin was a city shopper yesterday.

Russell McConnell of Bluffs was looking after his interests in the city yesterday.

George Wheeler was down to the city from Sinclair yesterday.

Henry Strawn of Strawn's Crossing paid the city a visit yesterday.

Roy Robinson of the south part of the city was transacting business in the city yesterday.

C. E. Lonergan of Murrayville made a business trip to the city yesterday.

J. M. Starr of the east part of the county called on city people yesterday.

James Kinney of Alexander was attending to his interests in the city yesterday.

Anton Bergschneider of the vicinity of Alexander traveled to the city yesterday.

ROUTINE OF DAY ON  
BOARD U. S. TRANSPORT

"Keep 'em Busy" is Watchword of Officer in Military Command of Vessel—Regular Daily Occupation Keeps Men from Becoming Weary of Ship Life.

London, June — (Correspondence of the Associated Press)—"Hey! You with the back!"

Sergeant S—abruptly interrupts the calisthenics of D Company and levels a stern forefinger at a tall young soldier with a bruised and swollen nose who is making only a perfunctory effort to touch his toes with his fingers. The scene is the deck of a transport, forward bound about 10 a. m. of a fine spring day.

"Is that what you call exercising?" demands the Sergeant. "You think you don't need any of this one-two-three stuff, eh? You're fit already, maybe, to eat a bone for breakfast!"

The company looks on and grins. Ordinarily Sergeant S—like the majority of the efficient, hard-working sergeants of the American army, is a man of few, precise words. But on rare occasions he finds it expedient to "talk to" some erring private, and his ability in that line has won him fame thruout his regiment.

The tall soldier flushes and stammers out an explanation. Bending over causes his nose, still sore from a bumping against a door to bleed.

"Fall out, then," directs the officer. "You ought to do something before we started." Briskly he resumes the setting-up exercises and for half an hour the company is busily engaged.

A Picture of Health.

Breezy and fresh is the morning, a brilliant sun making rainbows in the spray from the transport's bows and lending a sparkle to the dancing whitecaps. On all the decks khaki-clad lads are twisting their bodies, an working arms and legs to the measured count of their sergeants. All in a glow, filling their lungs with the sea ozone, they are a picture of health and American "pep."

"Keep 'em busy," is the watchword of the officer in military command of the vessel. He has several thousand exuberant young soldiers to look after, and his experience on transport has taught him that ship life becomes wearisome for large bodies of men closely quartered unless they have regular daily occupation. To meet this demand, he has worked out a program that supplies the required amount of wholesome work and that provides also for plenty of recreation and amusement.

Army hours are strictly observed. Reveille is sounded by the buglers at an hour that brings muffled protests from the few civilian passengers on board, the blasts penetrating to every corner of the ship. Sometime later, after the civilians have rolled over in their berths and are about to fall asleep again, there is a mighty tramping of decks and in the corridors as the hungry soldiers pour up from their quarters below, eager for breakfast.

Soldiers Served First.

Impatiently they await the summons, which is beaten on an instrument that sounds to the unfortunate civilian like a sheet of boiler plate, and, when it comes, they are off with a rush for the huge first-cabin dining room. And it is not until they have satisfied their hungry appetites that the officers and chaplains are called to their breakfast in the smaller dining room which, before the liner became a transport, was reserved for second-cabin passengers.

This is a British vessel, one of the largest in His Majesty's fleet of auxiliary cruisers. Before the war, it was described as "a floating palace," but the press agent of the line that operated it then wouldn't call it a floating palace now. It is a warship, grimly utilitarian. With the exception of the handsome mural decorations of the salons, there is scarcely a vestige of its former splendor and luxurious appointments.

The great lounge is now an armory, filled with stands for the troops' rifles. The gymnasium is a storeroom for soldiers' luggage. Only the first-cabin smoking room remains as it was, and this is used as a clubroom for the officers. It boasts a phonograph and a piano, and here an occasional concert is given in the evening, and every afternoon a regimental band plays.

The concerts are mostly of the informal, impromptu kind. The entertainers are enlisted men who seem to welcome the opportunity to display their talents before their officers.

The American Melting Pot.

The regiment from which these musicians are recruited is a striking example of the American melting-pot. Its members are sons of a dozen or more nationalities, and all parts of the country, even our island possessions, are represented. New York's East Side is much in evidence, and there are several Indians as well as one Hawaiian. This islander has no ukulele, but he takes a guitar and using it as if it was a zither, he gets the last sob out of plaintive "Aloha."

Some of the vocalists, although untrained, have surprisingly good voices. Their choice of songs runs to the comic and to the sentimental. The latter are especially popular, and the soldier who sings a simple homely ballad with a child and a heart-throb in it is a "sure-fire" hit.

When a man is going to war, his thoughts are with his loved ones back home, and his emotions lie near the surface and are easily probed.

DRESSING FLEAS NO  
LONGER PROFITABLE

Ceasing of Tourist Travel to Mexico Automatically Ended Demand for Little Insects Long a Staple Article in Carle Shops.

Juarez, Mexico, June — War in Europe has crushed another small business in a neutral country. Dressing fleas for market is no longer a profitable business in Mexico and the little insects have disappeared from the show cases of the stores that line Calle Comercio in this rambling border town.

Dressed fleas were a long staple article in the stores and shops here frequented by tourists. In little boxes no larger than the blunt end of a lead pencil, these adorned fleas could be seen thru tiny glass cases in all the glory of their wedding or christening gowns. Mexican women toiled for days dressing these diminutive insects, using the point of a needle to attach the bits of bright cloth and lace to the bodies of the wee pests. Thru the microscope these dressed fleas appeared as miniature persons with hats, dresses and socks covering their tiny forms.

When the United States government limited passports to persons on necessary business, the tourist travel to Juarez ceased and, automatically, so did the demand for dressed fleas.

Jumping Mexican beans, another offering of the curio stores, have ceased to be sold for the same reasons. Hundreds of these little, warm, beans were sold to travelers from the United States when the port was open.

Drawnwork, pottery, hand carved cans, mantillas and Mexican confections are rapidly disappearing from the shops and many of these curio stores have closed their doors since the tourist embargo became effective.

If you want the best there is going just try our ice cream and ices for your Sunday dinner and you will have it.

MULLENIX &amp; HAMILTON

## REFORM MEASURE

IN SOUTH AFRICA

London, June — In the future history of South Africa, the Botha government may be the longest remembered as the author of the "Natives' Land Act." The measure is the greatest experiment that has ever been made in the administration of a mixed people.

The Land Act Commission appointed to review the division of land under the act between the natives and whites, decided that the whites have been given an undue share. The native population of the country to 40,000,000, acres out of 206,000,000. All the remainder was allotted to a white population of less than 1,500,000.

As the object of the act was to provide for the development of the native peoples under suitable conditions, the commission has decided that the natives must have a larger share.

It remains for the South African Parliament to confirm the decision, after which various other reforms will be put into effect, among them the creation of native councils, the substitution of a system of paid agricultural labor for irregular squatting, and the extension of the franchise and of education.

## VOLUNTEERS WANTED

The President of the United States and Secretary of the Treasury, have proclaimed June 28, 1918, as National War Savings Day.

On that day, every adult citizen of Morgan County is summoned to the schoolhouse of his district in order to pledge himself to buy the district's quota of War Savings.

It will be necessary for the War Savings Committee of Morgan County to mail a summons card to every adult person in the County prior to that date. To help the enormous task of addressing these Summons Cards, the Chairman of the Morgan County War Savings Committee requests any patriotic young woman who is willing to donate two or three hours of her time to telephone to him at headquarters (Illinois Phone No. 1155, Bell Phone No. 127) between nine and nine thirty Monday morning, June 17.

NEW ASSORTMENT OF WHITE MILAN BANDED AND UNTRIMMED SHAPES VERY REASONABLY PRICED, AT HERMAN'S.

PATRIOTIC MEETING TO BE HELD AT TRINIDAD SCHOOL

Plans are being made for a big patriotic meeting to be held at Trinidad schoolhouse next Tuesday evening. There will be a number of speakers present, including County Superintendent H. H. Vasconcellos. A popular male quartet will render a number of patriotic songs.

The meeting will be held in the interest of War Savings Stamps and a big crowd is expected. The directors are trying to have every man in the district present on that night, and are being ably assisted by rural carriers Alfred R. Leake and Frank Bourn.

SUMMER DRESSES FOR ALL OCCASIONS REASONABLY PRICED AT HERMAN'S.

## WITH THE SICK

Wilbur Taylor who recently underwent an operation at Passavant hospital is reported as improving in a gratifying manner. Rev. R. B. Wilson is ill of typhoid fever and was removed yesterday from his home on West State street to Passavant hospital. His two children, Dorothy and Robert Wilson, are both also ill with typhoid and the little girl's condition yesterday was accounted as very serious. Members of the family have been sick for a week but the disease was not determined to be typhoid fever until Saturday.

George P. Robinson of Petersburg, father of State's Attorney Carl E. Robinson, is at Passavant hospital where he recently underwent a serious surgical operation. Mr. Robinson is sixty-eight years of age but his condition is accounted as quite satisfactory.

AUTO DUSTERS ONLY  
\$1.50, \$1.75 AT HERMAN'S

Aiderson Brothers and Robert Megginson were up to the city from Woodson yesterday.

(From the Illinois State Journal  
Sunday, May 19, 1918.)

SANGAMON COUNTY'S CANDIDATE FOR  
THE SENATE

Sangamon county has presented to the opportunity to name the senator for the Forty-fifth District in the next General Assembly by accepting the candidacy of Dr. J. A. Wheeler, who is standing for the Republican primary nomination. If the primary voters show wise judgment they will give no attention to any other candidacy and make sure of the nomination of Doctor Wheeler.

This is a "good government" district. It is overwhelmingly dry, and the candidate endorsed by the dry organization is certain of election. Doctor Wheeler is the first choice of the dries. He stands conspicuously for the policies which have brought the dry interests into politics and which have made their issue the predominating issue of the legislative campaign. He is fully qualified in every way for the position and no candidate will be nominated against him with a prospect of success.

Preponderance of dry sentiment entitles the dry element to control the legislative representation in this county and district. When the dries present as their choice a candidate as capable as Doctor Wheeler he should be conceded the nomination without opposition. The nomination so made will be equivalent to election and will insure a vote in the senate upon this vital issue which will truly represent the sentiments of the great majority of voters in the Forty-fifth Senatorial District.

WINCHESTER NEWS  
BRIEFLY TOLD

Women War Workers Discussed Various Themes at Luncheon—Cecil Hamilton in Navy—News from Boys Overseas.

Winchester, June 15.—Cecil Hamilton, who left earlier in the week for St. Louis to enlist in the navy, passed the examination and his parents received a card Friday saying he is on his way to Puget Sound, Wash.

Miss Janice Taylor of St. Louis is visiting Miss Louise Townsend.

Big Sandy creek is out of its banks and considerable damage has been done to a number of fields of growing corn.

Mr. and Mrs. Grant Coultas have received word from their son, Wilson, that he has arrived safely in France.

The company which Mrs. J. C. Grout entertained at 1 o'clock Friday included the precinct chairmen of the council of national defense and not the Red Cross as was previously stated. Interest in the occasion was increased by the presentation of various reports. Mrs. Thomas Condit made a report of the recent convention in Chicago, and

Mrs. Schweer talked on child welfare work which is now being organized in the county. Mrs. Cal Simmons gave a report of the cooking demonstrations given by Miss Wright in the various precincts of Scott county. The work of the Red Cross chapter and the three branches in this county was covered in the report given by Miss Louise Townsend.

Miss Genevieve Young of Warrensburg, Mo., is a guest at the home of Mr. and Mrs. David Hainsfather.

W. D. Gibbs and family, who have spent the winter in St. Louis have returned to Winchester. They made the trip thru their Cadillac car.

Mr. and Mrs. Douglas Tankersley have received word from their son, Roy Tankersley, that he is now with the troops in France.

Harry Gassen arrived Saturday afternoon from Virden. He is attached to the base hospital at Fort Worth, Texas, and is in Illinois on a furlough. He is visiting his brother, R. R. Gassen, here.

Mrs. Andy Homsier of East St. Louis is visiting at the home of Mrs. Thomas Southwell.

The young ladies of the surgical dressing class furnished boxes for all of the nineteen young men who left recently for special service.

Miss Enice Kelly has arrived from Jacksonville for a summer vacation visit. Miss Kelly is employed at the state school for the deaf in Jacksonville.

## PERSONALS

Thomas Casey of Buckhorn was a traveler to the city yesterday. Dean Wilday made an auto trip from Meredosia to the city yesterday.

John Snyder was a representative of Alexander in the city yesterday.

Wm. Norman made a business trip from Litchberry down to the city yesterday.

James Leahy of Pleasant Plains was a visitor with city friends yesterday.

George Ford and Fred Adams of Waverly were city callers yesterday.

Frank Huston of Sinclair was added to the list of city callers yesterday.

A. C. Reid and James Masters of the north part of the country called in town yesterday.

Richard Leake of the northwest part of the country was a city caller yesterday.

Misses Mary and Pearl Mawson have returned from Waverly, where they went to attend a C. E. convention and visit their cousins, Misses Edna and Sylvia Grey.

F. D. Simmons of Woodson was attending to affairs in the city yesterday.

Henry Deppe helped represent Meredosia in the city yesterday.

John Blumling of Woodson was looking after his interests in the city yesterday.

COLLEGE GROVE  
BREAKS THE RECORD

Sale of War Savings Certificates Totaled \$21,250 at Saturday Night Meeting.

A patriotic meeting was held at College Grove school four and a half miles west of Franklin Saturday night, when Franklin precinct broke its own record for thrift stamp and war savings sales. The sale ran to the splendid figure of \$21,250. Charles Gibson was the chairman and the principal addresses were made by Rev. W. E. Keenan and Father Smith. It goes without saying that these speakers made a strong patriotic appeal for the purchases were rapid and generous. William Whelan served as clerk and was kept busy writing down the names and amounts. It was a largely attended meeting and the results speak in a very definite way of the fine patriotic enthusiasm which dominates the people in that locality.

ITALIANS BRING DOWN  
BIG HYDROPLANES

Three Monster Austrian Machines Brought to Earth Behind Italian Lines—Enormous Structures Carry a Thousand Pounds of Bombs.

Headquarters Italian Army, June — Three of the monster type of Austrian hydroplanes recently have been brought down almost intact, and with their occupants are now behind the Italian lines. They are called the K211, K383 and K388. All of these K-type of machines are enormous structures with three motors of 100 horse power, carrying three men and a thousand pounds of bombs.

The K388 was the last to be captured after it had made an early morning flight of observation near Venice. Crashing the Italian lines, just back of Venice, the big car scattered bombs on the camps and sprayed its machine gun on men below. But a fortunate shot from an anti-aircraft gun put a hole thru the motor of the big machine. It immediately struck out to sea but in its wounded condition it struck the water with a crash and capsized.

In the obscurity the wreck floated for some time without being noticed, but the cries for help from the drowning aviators at last brought a rescue party from the Italian lines. All of the operators were wounded, two of them seriously. The big machine was towed in to the naval base where it joined the growing collection of trophies of war.

Mrs. Helen Jordan will leave Monday for Long Island to spend the summer months at the home of her aunt, Mrs. Dwight. Miss Edith Jordan will also leave Jacksonville Monday and will go to the Jordan cottage at Castle Park for the summer.

SUIT FOR DIVORCE  
W. L. Armstrong as attorney has brought a suit for divorce for Wilson Shaw who is seeking divorce from his wife, Ethel Shaw. They were married in 1914 at Metropolis, Ill., and lived together until February of 1917. Desertion is the charge made.

RETURNED FROM MEETING  
Dr. Carl E. Black and Dr. A. L. Adams have returned from Chicago where they attended the sessions of the American Medical Association. Dr. Black appeared on the program of the surgical section Friday which was held in the auditorium theater.

Dr. J. W. Dinsmore of Nebo and Dr. J. B. Perkins of Franklin were business visitors in the city yesterday.

NEW RULE TO APPLY  
AT END OF WAR

London, June.—The government's Agricultural Wages Board has decreed that three months after the cessation of hostilities, all British agricultural laborers, shall become entitled to a regular half holiday each week in addition to Sun lay, making their normal working week five and a half days.

ARRIVED SAFELY  
Thomas Hale received a card from his son who is with the American forces, that he had arrived safely "somewhere in France."

ARRIVED SAFELY OVERSEAS  
Mr. and Mrs. L. S. James, of West College street have received word of the safe arrival overseas of their son, George. James. The young man is a mechanic in the automobile branch of the army.

IS NOW OVER THERE.  
Relatives have received word of the safe arrival "over there" of John F. Miskell. He enlisted in Company B and was later transferred to the Heavy Field Artillery 123 Supply company.

MADDOO TO VISIT WEST  
Washington, June 15.—Secretary McAdoo will leave White Sulphur Springs tomorrow night for an unannounced destination in the west to spend several weeks recuperating from throat trouble.

HOPE TO PLACE  
BIG LOAN IN U. S.

Vladivostok, June.—The municipal Council in endeavoring to arrange a loan of three millions rubles for the use of the city. The foreign consuls have given their assistance. It is hoped to place the loan in the United States.

GERMAN SOCIALISTS  
INTRODUCE MOTION

New York, June.—The socialist faction in the German Reichstag has introduced a motion requesting the Chancellor to propose a law preventing landlords from refusing to lease apartments to families with many children, according to the Berlin Vorwaerts.

TROPHIES OF BATTLE  
EAGERLY SOUGHT

Army Order Forbidding Carrying Off of These Trophies Does not Stop Souvenir Hunters—Tommyes Have Craze Worse than Others.

London, June 13.—No longer are British soldiers on leave seen streaming out of the big London railroad stations with trophies of the great war in the form of a German helmet, rifle, bayonet or a few odd bombs and shells to decorate the walls of their home. An army order long since issued but only very recently put rigidly into effect, forbids the carrying off of these trophies from the battle field, and now hawk-eyed military police watch the leave boats.

But all the orders in the world and all the precautions ever invented will not stop souvenir hunters. And the Tommyes have the craze worse than the nimble-fingered gentry who used to specialize in railway straps, hotel soap and towels and chips of granite from old castles.

To carry the stuff home the soldiers will try all sorts of subterfuge. They will carry their souvenirs about with them from rest billets to the trenches, sometimes even refusing to dump it when going into action. They guard their treasures like a diamond for months and will sacrifice little comforts that mean so much in the line in order to stow a harmless German bomb or a fuse cap of a shell in their sack. Men have left their own rifle with the quartermaster or in some unauthorized quarter and carried off a German one in a waterproof case past the picket at the boat. Pieces of bombs and shell have been bound into puttees because haversacks are liable to be searched and extra pockets have even been sewn into tails of overcoats to hide forbidden souvenirs.

NEW TREATMENT  
FOR DEEP WOUNDS

Amsterdam, June.—Human fat says the Vienna Klinische Wochenschrift has proved of great benefit in healing especially deep wounds where lesions of the bones and other parts have occurred. Such fat—obtained from operations, this medical journal explains—is preserved germ-free and re-sterilized before use. It is then heated to the temperature of blood and injected, rapid cicatrization being obtained. Human fat has also proved very useful in accelerating the healing process in cases of torn tendons and nerves.

BRITON OFFERED  
WASHINGTON POST.

London, June.—According to the Sunday Herald, the British government recently offered to Viscount Jellicoe a post in Washington as British naval representative there. He was unable to accept the post, however, largely because his wife's health made him desire to remain in England for the present.

## A GOOD SCHOOL PAPER

A number of Jacksonville people occasionally receive copies of the North Dakota Banner, published at Devils Lake, North Dakota for the school for the deaf of which Frank Read, formerly of this city, is the president. A recent issue has a halftone showing the main building at the institution. It is a large and modern structure, indicating the good care which the Dakota people take of the wards of the state. One of the pictures shows the girls of the school in Greek costume giving a series of exercises on the front lawn of the institution.

## A PATRIOTIC ACT.

Seeing so much regarding fears for the coming wheat crop there be not enough help to harvest it, J. W. Baptist called his men together and suggested that they refrain from concrete work and city affairs in general as long as they could be of any use in the harvest field. Eight of them agreed to the plan and will hold themselves in readiness to shock wheat when the time comes.

Born to Mr. and Mrs. Howard Martin of West Lafayette avenue a son, Harold Killam. Mrs. Martin was formerly Miss Helen Killam.

Mrs. Albert Hopper of Sinclair was a city shopper yesterday.

Mrs. Clarence Rice of the vicinity of the mound was added to the list of city shoppers yesterday.

## NOTICE REBEKAH.

All members are requested to meet at the hall on East State street this afternoon at 2:30 o'clock. Memorial Services, Ethel Stewart, Noble Grand, Anna M. Baldwin, Sec'y.

Nathan Lazarus, a prominent merchant of New York City, is visiting his friends, Mr. and Mrs. J. Herman of this city.

N. B. McDonald of Route 2 received a message from Phil, Kentucky, announcing the death of his brother, E. G. Grant. No particulars were given.

WHEN YOU  
LUNCH OR  
DINE

—These are days when necessary food restrictions make service more difficult. However, you will enjoy a luncheon or dinner here. Quality and Service are always paramount.

PEACOCK INN  
South Side Square

## Social Events

Miss Calkins Entertains Guests. The Quincy Whig says of a lady well known here: Miss Ruth Calkins will entertain at luncheon this noon in honor of the guests of Miss Rachel Hall. Two of the guests are visiting in the Calkins home. A breakfast at South park Saturday has also been planned for the guests by a crowd of the young girls.

## Entertained at Luncheon.

Mrs. William Barr Brown, Sr., was the hostess at a luncheon given Wednesday at Peacock Inn in honor of Miss Millicent Rowe. Twelve of Miss Rowe's most intimate friends were included in the company. Waupaca ferns and roses were used in the artistic scheme of decoration. The event was one of the most delightful of the series given for Miss Rowe.

Miss Rachel Hall Entertains  
Guests in Quincy.

The Quincy Whig says: Miss Rachel Hall was hostess to the Twenty-fourth Street Gossip club Thursday afternoon in the home of her aunt, Mrs. G. H. Wilson, in honor of her guests who have come here for a visit. A few other friends were also invited and a delightful afternoon was spent with games and their knitting.

Miss Hall's guests from out of town were: Mrs. C. J. Armstrong of Jacksonville, who came Tuesday; Miss Lucy Coover, Miss Mary and Harriet Hall of Jacksonville, who came Wednesday, and Mrs. Hugh H. DeYermond of Albany, N. Y., who came Thursday. Her father, W. E. Hall of Jacksonville is also here. Miss Coover and Miss Mary Hall have been the house guests of Miss Ruth Calkins also.

Jacksonville Guests Go  
to Edinburg to a Party.

Friday Misses Helen Leach, Helen Gibson, Lulu, Belle, Hil-dreth, Alma Gibbs, Loretta Piepenbrink, Dorothy Weber and Ruth Snyder left for Edinburg to attend a week end party given by Miss Vivian Richardson.

## BATHING CAPS

A fine line in varied colors. Gilbert's Pharmacy.

ZIG ZAG TACTICS ARE  
MOST SUCCESSFUL

London, June.—British submarine commanders attest the value, from their own experience in trailing enemy warships of the zig-zagging tactics used by allied shipping in dodging U-boats. All agree that an irregular course, coupled with speed, makes the fleeing vessel a difficult target.

Everything new in white hats and Milans. Also white trimmings for summer—large assortment. Floreth Co.

NEW FIELD FOR  
WOMEN IN ENGLAND

London, June.—The very latest field for women's work is helping to provide eyes for the army and navy by making lens and prism. Only women with deft fingers, quick eyes and a gift of patience are taken for this work which also involves fitting glasses in periscopes, gun-sights, field glasses, telescopes and cameras for use on aircraft.

Clearance sale of colored hats, trimmed and untrimmed, \$1.48 and \$1.98. Floreth Co.

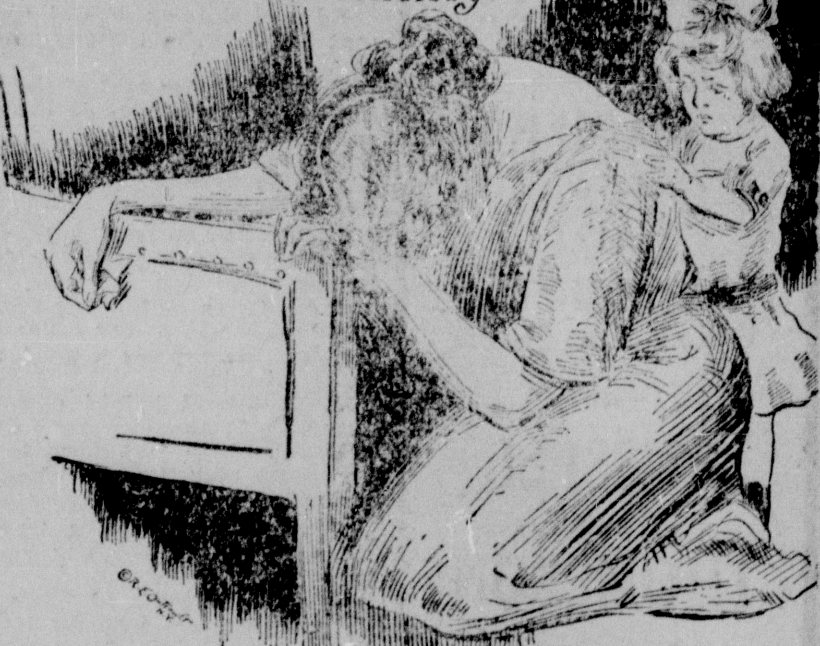

## MATHIS, KAMM &amp; SHIBE SAY:

If you have been having foot trouble try a pair of "Ground Gripper" shoes. Designed for solid comfort. Women's, \$8.00; men's \$9.00. Ask to see them.

Henry Williamson motored from Concord to the city in his Buick car yesterday.

Harry Rice of the vicinity of Arnold traveled to town yesterday in his Buick car.

The man with money  
can do the duty he  
owes to his family.

You are wasting money every week in some trivial way, that if it were put in the bank would soon make a very handsome sum.

If that sum were in the bank and added to, it would grow to be a fortune, if you live, but if you should die you would not leave helpless little ones behind.

We add 3 per cent interest.

## CONFIRMATION OF LARGE CLASS TODAY

Ceremonies in Charge of Right Rev. James Ryan, D. D., of Altoon—Class of 346 Children and 148 Converts.

At the Church of Our Savior this morning will take place the confirmation of one of the largest classes in the history of the church in this city. The class numbers 346 children and 148 converts. There also will be a number from Murrayville and Franklin.

The confirmation will be in charge of the Right Reverend James Ryan, D. D., Bishop of Altoon diocese. Bishop Ryan arrived in the city Saturday. He will say mass at 6 o'clock and the confirmation will take place at 8 o'clock. Bishop Ryan will be assisted by Father Formaz and the local clergy in the confirmation ceremonies.

**Church Newly Decorated**  
The Church of Our Savior has been beautifully decorated for the occasion. For several months past Hilton Lake of Chicago has been engaged in the work. Mr. Lake has a wide renown in this kind of work and studied at Ecole des Beaux Arts. He designed the decorations and mural paintings which are modern with a feeling of gothic.

The ceiling of the sanctuary is shown in the blue of heaven with rays of light radiating from the crown of glory into the azure field upheld by six cherubim, three on the main altar emblematic of the immediate presence of God.

Over the side altars are angels holding palms emblematic of victory and righteousness and lilies signifying purity and charity emblematic of the Blessed Virgin. The dove and tongue of fire immediately over the sanctuary with foils and rays, symbolic of the seven gifts.

Over each of the murals in the ceiling panels are appropriate symbols and emblems. Below the murals five crosses in ornate form, emblematic of the five wounds, between which grow the vines of life.

## DEATHS

**Thomas.**  
Allen A. Thomas, an eccentric individual, died at the soldiers' home in Quincy Friday. He was born in Salem, Ohio, Oct. 25, 1836 and at an early age came to this country. He served three years faithfully in the civil war and after it was over he returned to this country and for more than forty years lived the life of a comparative hermit on the Boddy place in Markham precinct. He was a kind hearted man, had no bad habits and was ready to do a good deed when requested. Several times the writer has conducted picnics in that vicinity and the old man was always ready to carry water or do anything requested and if any of the merry-makers left or lost anything he would carefully preserve it and take it to Mike Boddy's house to be claimed. He was always glad to have the picnics take place for he received what was left of the lunches and regarded it as a great treat.

In later years he used to spend his summers in his home and go to Quincy in the winter but finally he became so poorly that he took up his abode there altogether about eighteen months ago. He was respected by all who knew him and while not especially energetic he earned an honest living and troubled no one.

**Sheppard.**  
The death of Mrs. Emily Sheppard occurred last night at the home of her step-father, Columbus Hairgrove, on East Morgan street. Mrs. Sheppard was removed there several weeks since from her home on Lincoln avenue in order that she might be near her attending physician, Dr. J. W. Hairgrove. Mrs. Sheppard's death followed an extended illness. The deceased had been a resident of Jacksonville for a long period and her life and character were of a kind to give her the warm esteem of those who knew her best. She lived earnestly and usefully and a great many people will learn with sincere regret of her death. Mrs. Sheppard's maiden name was Emily C. Whitlock and she was seventy-two years of age. She is survived by two sons, Herman and Hugh Sheppard both residents of this city.

The funeral services will be held Monday afternoon at 2 o'clock at the Sheppard home at the corner of Lincoln and Michigan avenue with services in charge of Rev. W. R. Leslie. Interment will be in the Sheppard cemetery.

**White hats; new arrivals:**  
the very latest for summer.  
Florence Co.

**HERE SUBJECT TO CALL**  
Mr. and Mrs. Marcy Osborne, who have been in the east for the past two weeks, returned to Jacksonville yesterday. Mr. Osborne went to Newport News to make application for entrance to the navy. He was given an unfavorable report by the medical examiners there but went to Washington for re-examination and was accepted. He has returned to Jacksonville temporarily and is subject to call. He must have his affairs in condition to make it possible for him to leave on very short notice and he is expecting an early call.

**WILL CONTINUE BUSINESS**  
The coal business formerly conducted in the name of U. J. Hale & Co. will be continued under the management of Mrs. Hale. Coal from the same mines as heretofore will be handled and the patronage of the public is solicited. Both phones 74.

Clyde Sperry of Greenville, Mississippi, is visiting his father, C. L. Sperry and family north of the city.

## A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. It is not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by druggists.—Adv.

## MISS ROWE IS BRIDE OF MR. PAUL SAMUELL

Marriage Solemnized at Rowe Home Saturday Night—Large Company of Guests—Will Take Wedding Journey in July.

The nuptials of Miss Millicent Rowe and Mr. Paul Samuell were solemnized Saturday night at the Rowe home 1152 West State street with most impressive rites. The ceremonies had all of the beauty and color, which June flowers and the grace and freshness of life can contribute. Relatives and friends made up a large company of interested witnesses as these young people, who hold such a distinct place in the social affairs of Jacksonville took the marriage vows.

The guests as they arrived found in the receiving line Mr. and Mrs. F. H. Rowe; Mr. and Mrs. C. Y. Rowe of Chicago; Miss Emma March of Chicago; Mrs. J. M. Daley, St. Louis, Dr. D. E. Samuell, Wilmington; Mr. and Mrs. Louie Forman, Bloomington; Mrs. Schultz, Beardstown. Before the ceremony Mrs. Helen Brown Read, with Mrs. Helen Ayers Bullard as accompanist, sang Alwayd's "Beloved, It Is Morn'g." As the wedding party moved down the staircase to the parlor Mrs. Read sang with rare beauty the wedding music from Lohengrin. Marie and Elizabeth Goebel, dressed daintily in white, were the flower girls and preceded Miss Norma Virgin of Virginia, Miss Lillian Davis, Jacksonville, the bridesmaids, and Mrs. Leonard P. Finley of Chicago, the matron of honor.

Then came Miss Rowe with her father, Frederick H. Rowe. Mr. Samuell was attended by Richard Y. Rowe and met the bride party before the flower made altar. Dr. Joseph R. Harker was the clergyman and the rig service was used. Those familiar with the bride's college years recognized the special fitness of Dr. Harker's presence for as a child and young woman she was a student at the Woman's college and in the latter years one of the valued members of the college faculty. The bride's gown was of white satin made en train and her tulle veil was intertwined with orange blossoms. Her bouquet was of white sweet peas and orchids. The young women in the bridal party were gowned in pink.

While the wedding plans were marked by a certain simplicity of detail there was a splendor of decoration. In the vestibule were great bunches of varicolored hollyhocks and their rich tones lent a special beauty to the decorations. In the hallway and various rooms the prevailing tones were white and lavender, suggested by the sweet peas and orchids which were used for the corsage bouquets of the bride party.

The flowers in the hallway were especially indicative of the time and season. The stair rail was wound about with smilax and ferns, surmounted by a chain of daisies running from the newel post to the upper hallway. In the parlor cathedral vases with great bouquets of white peonies stood at either side of a screen of foliage and it was there that the wedding party stood for the marriage service. In the living room, library and dining room the same deft touch in decoration was displayed, the most generous use of garden flowers bringing to the rooms all the floral glory of the month of June.

The friends of the Rowe family know the broad hospitality of their home and that spirit was evidenced in countless ways in the arrangements for this marriage event. The guests thronged not only thru the spacious rooms but also on the inviting veranda and the adjoining lawn. In the dining room the service was by Hood & Larson.

Among the guests were Judge and Mrs. Norman L. Jones, Carrollton; Mr. and Mrs. Will Taylor, Springfield; Miss Nell Taylor, New Berlin; Mr. and Mrs. Isaac R. Diller, Springfield; C. E. Goodale and Dr. H. Wellington Yates, both of Detroit, business associates of Mr. Rowe; Mr. and Mrs. Isaac Powers of Terre Haute; Mr. and Mrs. C. S. Young of Rushville.

The bride in this important nuptial event is the only daughter of Mr. and Mrs. F. H. Rowe and is a young woman whose individual grace and unusual attainments along special lines have given her a very large place in Jacksonville. Mr. Samuell spent a series of years in the preparatory and college department of Illinois Woman's college and supplemented her work in expression with special study in the east. For the past two years she has been a member of the Woman's college faculty, serving most acceptably as an instructor in the line of work which has held her largest interest and enthusiasm.

Mr. Samuell who is a son of Mr. and Mrs. H. B. Samuell of Wheaton, Mont., spent some of his earlier student years in Jacksonville attending Whipple academy and Illinois college. Subsequently he became a resident of Bloomington and took his law course at Wesleyan university. Shortly after graduation he was admitted to the bar and in 1910 located for the practice of law at Three Forks, Mont. He had established a practice there when altitude conditions made it advisable for him to return to Illinois, and three years ago he located in Jacksonville. Mr. Samuell very speedily made a name for himself in the Morgan county bar and is today recognized as one of the ablest and most successful of the younger attorneys in this city. He is identified with the fraternal and social life of Jacksonville in a prominent way.

## CHILDREN'S DAY AT CENTENARY CHURCH

Will be Given this Morning at the Time of the Regular Preaching Service.

The Children's Day exercise of the Centenary church will be given this morning at the time for the regular preaching service. A very interesting and attractive program has been prepared which is as follows:

## NOTICE ODD FELLOWS AND REBEKAHS.

Sunday, June 16th is Memorial Day and will be appropriately observed at the Christian church at 3 p. m. An excellent program has been prepared for the occasion. All Odd Fellows will meet at Odd Fellows Temple on East State street, and the Rebekahs will meet at Odd Fellows Hall on West State street at 2 o'clock p. m. and march to the church in a body. Every member of our noble order should attend and pay tribute to our honored dead.

By order Committee of Arrangements.

## SPLENDID ASSORTMENT ON SALE OF WHITE WASH SKIRTS AND WHITE AND FANCY SILK SKIRTS, AT HERMAN'S.

**FALSE FIRE ALARM.**  
The fire department was called to 828 West North street during the storm Saturday morning. The residence is occupied by H. M. Mosely. Lightning had run in on the wires and neighbors across the street thought the house was on fire and turned in an alarm. No damage was done and the department had a long run in about the worst storm of the year.

**FINAL WARNING.**  
Poll Tax of Road District No. 6 must be paid by June 29th or prosecution will follow.  
A. W. Jeksbury, Commissioner.

## John Deere Grain Binders

Rigidly Inspected and Carefully Tested

Each binder attachment receives two tests in tying. To insure continued accuracy of operation, all important wearing surfaces are hardened. This is another good example of the extra value that is put into the John Deere Binder. All binders tie accurately just before packing.

The one-piece shaft carries a third packer—a great advantage, especially in short grain or long, tangled grain.

The needle shaft is also made of drop-forged, high-carbon steel to insure the accurate operation of the needle in carrying the twine to the knoter.

## HALL BROS.

Sole Agency  
for Morgan Co.  
PLYMOUTH TWINE—ALWAYS THE SAME!

## Davenport and Davinettes

—finished in Golden Oak, Fumed Oak or Mahogany—Tapestry or Chase Leather Upholstery.

There is considerable delay in getting goods of this class. Make your purchase now. We have a good line to select from.

## Furnaces

The government advises you to "purchase your coal early," which is good advice.

Our advise is: "have your furnace work looked after early."

You know what a rush will be on next fall and fewer men to do the work.

**\$4.50 ROCKER**, like cut, just the rocker for inside or outdoor use. A bargain. Come early if you want one at the price.

### WELL KNOWN RAILROAD MAN IN CITY YESTERDAY

John W. Daly, Passenger Traffic Manager for New York Central Lines in Chicago, Spent Few Hours in City—Now Engaged in Important Railroad Work for Government—Mrs. Daly and Children Remain for Visit.

John W. Daly, former resident of Jacksonville, now general passenger traffic manager for the New York Central lines west of Chicago, spent a few hours in the city yesterday.

The main object of Mr. Daly's visit was to bring Mrs. Daly and children for a visit with Mrs. Daly's mother, Mrs. John Robertson of West Lafayette avenue. Mr. Daly had to leave last night for Chicago as he has important business there which requires personal attention early Monday morning.

Speaking to a Journal representative Saturday evening Mr. Daly said the acquisition of the railroads by the government had not made any change in his position as passenger traffic manager of the New York Central lines west of Chicago.

Mr. Daly is one of a committee of five which is composed of passenger traffic managers of the leading railroads of the country. This committee is known as the Passenger Traffic committee of eastern railroads.

The committee sits in New York and its function is to have charge of all passenger traffic problems in the eastern regional district. This district comprises all of the railroads east of the Mississippi river and north of the Ohio river. The regional director is E. E. Smith and the committee will be in charge of the work during the period of the war.

It was work connected with this committee which necessitated Mr. Daly's hurried departure for Chicago last night as he must leave Chicago as soon as possible for New York City to sit with the committee on some important traffic problems.

Since leaving Jacksonville Mr. Daly has risen high in railroad circles and is regarded as one of the most able passenger traffic men in the United States. He talks interestingly of his work and especially that which is being done in connection with the war.

There have been rumors and allegations that the railroad men of the country have "laid down" on the government. Mr. Daly says that this is untrue and an unjust statement for anyone to make. He says that every railroad man is not only doing his "bit" but is putting extra effort into it. The one and only object being an early winning of the war.

Mrs. Daly and children will remain here for an extended visit with Mrs. Robertson. Mr. Daly said last evening that he hoped to be able to visit Jacksonville again before long when he would have time to visit with his friends for a time.

**Lost — Between Springfield and Jacksonville, pair of wire wheels. Finder notify Arthur Hardoncourt, 113 Commerce St., Fort Worth, Texas. \$25 reward.**

### CHILDREN'S DAY AT MCCABE CHURCH

Opening song, Star Spangled Banner.

Prayer.  
Song, Birds and Blossoms.  
Reading—Mabel Brinkman.  
Song, The Daisy.  
Exercise—Three girls.  
Solo—Mrs. Mackay.  
Reading—Imogene Mackay.  
Exercise, The Flag.  
Song, We are Little Soldiers.  
Recitation—Mrs. Letha Burton.  
Song, Where they grow.  
Exercise—Three boys.  
Recitation—Dorine Butler.  
Song, Columbus the Gem.  
Address—Prof. C. B. Nashy.

**Have your furnace cleaned and overhauled in good time. Faugust does that sort of work in good shape. 222 North Main St.**

Mrs. F. G. Simms has received word of the safe arrival overseas of her nephew, Lieut. L. H. Campbell of Petersburg.

### CENTENNIALS WILL HOOK UP WITH INDEES

Fast Springfield Team Will Show at West Side Park Today—Hartman Former Local Hurler Will Be on Mound.

The Fast Centennial team of Springfield will be lined up against Manager Smith's Indees at West Side park this afternoon. The Centennials have some of the strongest players in Springfield in their lineup and should give the Indees a strong argument.

Among them is Hartman who pitched for Jacksonville a number of times in 1916. Hartman is one of the classiest hurlers in this section and a hard man to beat. In case he should not pitch Dove will be on the mound and he also is a strong hurler.

Manager Smith has announced that owing to being unable to secure an umpire he will handle the indicator himself. Ed Christopher will have charge of the men on the field. Christopher is one of the best ball players in the city and has had experience as captain and no doubt will get good work out of the men.

The following lineups have been announced:

Centennials—Grady C. Dove, Hartman, p. Troy lb Alwelt 2b, Watling ss, Lascody 3b, Shaughnessy lf, Livingston cf, Catten rf, Schultz, utility.

Indees—Kitchen p, Beerup c, Christopher lb, Gunn, Day 2b, Briggs ss, DeGrates 3b, DeSilva lf, Gillette rf, Flynn utility.

**Men desiring faultless fitting, fast colors and first class negligee shirts should see the fine assortment shown by FRANK BYRNS' Hat Store.**

### CONGREGATIONAL SUNDAY SCHOOL PICNIC

The Congregational Sunday school will hold their annual picnic in Nichols park Friday, June 21. All members of the Sunday school and church are invited to attend, and a special invitation is extended to the members of the Joy Prairie church to join us in this picnic.

Those attending will meet at the church promptly at 2 o'clock p. m., where autos will take them to the park, where the afternoon will be spent in recreation with a program arranged to meet pleasure of all. The following is the list of committees:

Arrangements—L. S. Doane, J. P. Lippincott, S. W. Nichols.  
Baskets—Mrs. H. M. Capps, Mrs. W. T. Wilson, Mrs. J. R. Lippincott.

Refreshments—R. P. Joy, F. Irving, Henry Lindeman, Marcus Robinson.

Tables—Mrs. Charles Smith, Mrs. Eb Spink, Mrs. W. W. Young.

Program—Dr. W. E. Collins, Mrs. L. S. Doane, Mrs. T. P. Carter, Miss Ione Kuechler, Mrs. Irving Potter.

Walters—Miss Isabelle Smith's class, Miss Margaret Irving's class, Earl Spink's class, Mrs. H. M. Capps's class and the Pollyannas.

Autos—Earl M. Spink, Arthur D. Fairbank, S. A. Fairbank.

**Well made, faultless fitting nightwear costs no more and lasts longer, recommended and sold by FRANK BYRNS' Hat Store.**

### LIGHTNING STRIKES HOUSE OF B. F. REESE

During the height of the storm yesterday morning the house of B. F. Reese on West Morton avenue was struck and the roof pretty badly damaged which was the principal injury done excepting the putting out of commission two telephones. Mr. Reese and his housekeeper, Mrs. Hazel Myers, were in the house but neither was hurt.

Near by was the city garbage team driven by Grover Brownlow with Frank Whittaker assistant. The horses were knocked down and stunned somewhat and also mixed up a bit with some barbed wire fence by which they were standing. Mr. Reese came out and helped get the animals loose and they recovered and were able to draw the wagon away.

### BUYS NEW FRANKLIN

A prominent resident of the south side wanted a car of thoro superiority, distinctive individuality, and above all economy, so placed his order for a fine new Franklin Touring Car yesterday with the R. Haas Electric & Manufacturing Co., 314 East State.

### LIGHTNING PLAYED PRANKS SATURDAY

The lightning played pranks in the residences of S. A. Fairbank, J. H. Dial and Mrs. Corwin in Edgehill road during the storm Saturday morning. After an especially sharp flash of lightning Mrs. Fairbank heard a noise in the bath room. Investigation showed that the lightning was flashing all about the room. She kept away from the door and suffered no ill effects. At the Dial residence the lightning was all about the kitchen. At Mrs. Corwin's the bolt struck the bath room and Mrs. Corwin was slightly shocked but the only ill effect was a headache.

### BEST FOR SUNDAY DINNER

Some of our delicious ice cream. Call or phone us an order and you will be promptly accommodated. MULLENIX & HAMILTON

### WIFE OF BOB FITZSIMMONS TO SPEAK HERE

Mrs. Robert Fitzsimmons, wife of the Ex-Champion of the world will speak here for the Salvation army next week. Mrs. Fitzsimmons who is quite an interesting talker will be here from Tuesday to the end of the week.

George Myers of Arcadia was a traveler to the city yesterday.

### TWO PERSONS STUNNED BY LIGHTNING

Shortly before noon yesterday two persons were stunned by lightning but fortunately not seriously injured. Mrs. Robert Reid, who is staying with her parents, Mr. and Mrs. James Stout, 837 West North street, while her husband is in the service was hurt the worse of the two. While the lightning was flashing and the thunder reverberating the lady started to walk across the kitchen when she suddenly became unconscious and fell heavily into the arms of her mother who was fortunately near by.

At first Mrs. Stout thought it was only a bad case of fainting supposing possibly that the electric wires had burned out, but as the lady failed to come to, she discovered that something serious was the matter and hastened to call Doctors Cole and Reid, the latter the lady's father-in-law. Both worked over the patient for more than an hour and finally succeeded in restoring her and last evening Dr. Reid said he thought nothing serious would result.

Mr. Stout had just taken a bath and was partly dressed when the stroke hit him. He was considerably stunned but he came around all right though he felt the effects of the shock all the evening.

**Let us make your Sunday dinner all you ask with the addition of some of our ice cream.**  
MULLENIX & HAMILTON

### WILL GO TO COLORS

One of the force at the Floreth dry goods store, Volle Huffman, has resigned after a service of two years as he expects to leave in a short time to begin work for his country. He and his wife will visit friends in Elkhart and Concord for a few days before he goes away. Mrs. Huffman expects to remain here for a time and should her husband be located anywhere near she will try to go to him and be with him while he is in this country. Mr. Huffman will leave a goodly number of friends and well wishers as he goes from the city.

**Men enjoy the comfort afforded by the perfect fitting, serviceable wearing underwear sold by FRANK BYRNS' Hat Store.**

### FIVE SONS FOR ARMY SERVICE

Mrs. Joshua Viefla of the city has certainly done her part toward whipping the kaiser. She has five sons; two have gone, two more are to go in a few days and the last one registered this week and may be called on at any time to go to the colors.

## LOWDEN ADDRESSES PRAIRIE DIVISION

Good-By Address of Chief Executive to Men Departing for Overseas Service—Talk was Inspirational to Men.

Springfield, Ill., June 15.—"No knights of old ever went forth to battle in as holy a cause as that which is calling you across the seas today, and I want you to know that I shall count the day happy indeed when some opportunity comes that I can do something, no matter what, to show my appreciation of you brave boys who are going to those battle-

fronts to fight our battles for us. I want you to know that, difficult tho it may be for the people of Illinois to communicate to you all their pride in you and all their love for you, that they will follow you from the moment you sail, they will go with you in your training camps there, aye, they will be with you in the trenches and in the hospitals. Illinois is proud of you, Illinois sends her love, and I shall take back to Illinois the message that I have been face to face with her Prairie Division, and that Illinois may know her honor and her future are safe in your hands. Good bye, God bless you, one and all. God keep you in this, the greatest year of all time in its significance to man

everywhere." The foregoing was the closing of the good bye address of Governor Frank O. Lowden to the last brigade of the Prairie Division when it departed for overseas service. This division is largely composed of units from Illinois, all of the old Illinois National Guard regiments being included. The Governor visited the different units at Camps Upton and Merritt and spoke to them on four occasions. On these visits he saw practically all of the division sent before they sailed. His talks to men were an inspiration to the men. They carried loving messages of friends and relatives in Illinois to men of the division and sent them over-seas with a knowledge that Illinois, officially at least, was keeping an eye upon the Prairie Division and had not forgotten it.

At the conclusion of one of his addresses the soldiers crowded around the Governor and he began to shake hands with them. Before they dispersed three thousand and had passed him and gripped his hand with tears in their eyes and thanked him for coming to see them.

Training Brings Improvement. "I have not seen you for six months," said Governor Lowden, "and I want to tell you that, though you are conscious yourselves of much improvement during that time you cannot appreciate how great that improvement is because it has come gradually, but I, who have not seen you during that period, can say today that a magnificent brigade of trained and soldier-like and upstanding men has been created during that time, and I congratulate you with all my heart upon the progress you have made."

"I come here today bringing a message of pride, of gratitude, of love, from the people of Illinois to this great organization. As you know the Prairie Division, of which you are so conspicuous and so brilliant a part, is an Illinois organization, and it seems to me entirely appropriate therefore, that I should remind you of not only the high privilege you have in serving Illinois, but of all the splendid traditions of the State from which you hail and which you will represent in this greatest war of all time."

"I see before me sons and grandsons of the old heroes of the Civil War. I want to remind you that at the beginning of that war it was an Illinois Captain, not as well known then as many of you here today, who hailed from Galena, who led a regiment from Springfield, who received Lee's sword in surrender at Appomattox, and who, in four brief years, marched from obscurity on the banks of the Mississippi to immortal fame, and held aloft the American flag redeemed, and for that was written a new lustre and a new glory indeed—Ulysses S. Grant of Illinois, the greatest Captain of his country."

Must Uphold Honor of State. "And may I say that it would not surprise us of Illinois, if, in the strenuous months which lay ahead, great names may be evolved by this organization which will

match in lustre that great name of which Illinois is so proud. I want to remind you that tho in that war Illinois was only a fraction of its present size, yet it sent more than a quarter of a million men to the front to fight the battles of freedom and of union. And so, officers and men, you come from a State which has great memories of the past, and Illinois knows, and knows full well, that her honor and her reputation are safe in the keeping of her own Prairie Division."

"A little over a year ago I went from the Capitol at Springfield to Lincoln's Tomb in the cemetery there, in company with that old hero of the Marne, Marshal Joffre. I saw him, with reverent hands and tear dimmed eyes, lay his wreath of flowers upon the coffin which contained Lincoln's immortal dust, and there fore the Prairie Division also has the matchless life, the uncounted sacrifices of that greatest exponent of the people's government of all time to maintain in this war. I knew that day, as I saw the old Marshal bend over Lincoln's immortal dust, that he, too had gathered newer inspirations for the strenuous years that lay ahead of imperishable France's tragedy and heroism. As he refreshed his courage and renewed his inspirations at that hour, you of this great brigade, if you will but recall what Lincoln stood for, will yourselves fight with a stronger arm, with a clearer eye, with a fuller heart, because Lincoln, in his lifetime, was the greatest advocate the world had even seen of the rights of man, just common man. That is the cause for which you are fighting today. In his death he became Democracy's saint. His tomb became a shrine. More and more liberty loving men, from all quarters of the world, make pilgrimage to Lincoln's tomb, there to pay their homage to him and there to renew their own resolution to fight to the last dollar and the last man for the sacred cause for which Lincoln lived and in which he gave his life."

Look Bravely to the Future. "Oh, officers and men, Illinois is proud of its past. Its hundred years of Statehood are rich with great achievements. But Illinois looks bravely into the future, because she knows that you and her other sons, who are offering all in the greatest cause for which men ever fought are going to the battle fronts in Europe. Your fathers and their fathers before them have made her past secure, and she knows, she has full faith, that you will make her future equally glorious."

"As I came from Springfield to Chicago, on my way here, thru what I think to be the most beautiful country that the sun ever shone upon, as I looked at the happy homes, the independent people on every hand, as I thought of the progress that, under freedom, Illinois had made, I said to myself, Illinois with her broad and fertile fields, with her happy homes, with her good women and her brave men, Illinois is too good for the Kaiser and I know that the Prairie Division will see to it that the Kaiser does not secure Illinois for himself."

Fight for World Democracy. "You go to fight, not only for Illinois on its material side, you go to fight for the honor of your wives and mothers and daughters and sweethearts; you go to fight for the sacred cause of the common man in Illinois and everywhere, because at last the two old principles, the one that government must come from above, imposed by the few upon the many, and that other, that man, just man, created in the image of his Maker, can rule himself, are at grip in the final contest for the final mastery the wide world round. When this war is over, not only Illinois and America, but all the world will be either one thing or the other, will either be free with the rights of the people to rule established, or will be under the iron heel of military despotism and autocracy everywhere."

All of the Prairie Division have arrived in France. It was in anticipation of that arrival that nothing was said about the Governor's visit to the troops. Now that all of the Prairie Division are safe in France the farewell address of the Governor, to them is given to the Press.

For the comfort of all of the parents and relatives of the Prairie Division it may be said that the Governor was greatly accord with their appearance, as a word of their manly bearing, and feels that Illinois will be well represented by the Prairie Division in the battles on the Western front.

HOLY CROSS 75 YEARS OLD. Worcester, Mass., June 15.—Holy Cross College, one of the best known and most historic of the Roman Catholic higher institutions of learning in America, has completed elaborate preparations for the celebration to begin tomorrow in honor of the seventh fifth anniversary of its founding. Invitations to participate in the event have been accepted by many church dignitaries and by hundreds of Catholic laity throughout the country who are alumni of the institution. During the week there will be reunions, pageants, speeches and other forms of celebration. The memory of Right Rev. Benedict Joseph Fenwick, bishop of Boston, who founded the college, will specially be honored by those assembled at their alma mater.

The college was founded by Bishop Fenwick in 1843. The few students of his day have grown into hundreds and Holy Cross graduates today number nearly 2,000. These include distinguished members of the Catholic hierarchy, and many who have attained prominence in law, letters, medicine, in public life and in the business world.

J. H. Danksin returned home from Springfield yesterday and left later in the day to fill an engagement at Greenville.

## A CRISIS CONFRONTS THE CITY OF JACKSONVILLE

Upon the result of the election next Tuesday depends the present and future of our city and its people.

**Jacksonville Cannot Longer Maintain Itself Without a Better Water Supply.** Fire devastation, epidemics and disease, loss of students in our schools and discomfort stare us in the face unless we secure a better and more abundant water supply. People will not come to or remain in a town without water. Industries will not locate here without it. Present industries cannot grow without it. Our State institutions will not be enlarged or improved without an assured water supply. Sooner or later, unless we secure a satisfactory water supply, will inevitably come an epidemic that will not only drive students from our schools but will prevent any more coming. Already the value of city property has declined on account of shortage of water and, unless we promptly initiate operations which will provide a copious supply of usable water, the bottom will fall out of the value of all city property.

**The Proposed Extension of the Water System is Approved by the State Geological Survey, the State Water Survey and the State Board of Health, by competent engineers and many of our citizens who have heretofore favored other methods of obtaining water.**

**It is the Only Possible Means by Which the City Can Obtain an Adequate Supply of Water in the Near Future.** The proposed extension should prove profitable to the city. The consolidation of the pumping stations will save money. An increased supply of water will produce greater revenue. If we do not at once provide water for the State institutions, we will lose an annual revenue of eight or ten thousand dollars. The increase in insurance rates in twenty years will probably amount to more than the cost of the proposed improvement. Property owners will pay the freight—either in insurance or by taxes.

The proposed extension will give us better fire protection, afford us the water we must have, reduce insurance rates, encourage the location of industries and reduce the danger of epidemics.

**A Crisis Confronts the City of Jacksonville.** As Americans our first duty is to win the war. As citizens of Jacksonville our first duty is to provide a better water system. As Americans we have cast aside all petty jealousies, animosities, factional and other differences and are unitedly standing shoulder to shoulder to win the war and are going over the top in all war endeavors. As citizens of Jacksonville we should be loyal to our town and to ourselves, forget our past mistakes and differences, look well to the future and all together put the bond issue over the top.

It is not a question of men. It is far greater than that. It vitally affects the health, prosperity and comfort of every man, woman and child in Jacksonville. It is of far too great importance to be defeated by any personal feelings.

**The Interests of the Public are Fully Protected.** The proposed extension and expenditures therefor must be with the approval of the Citizens' Water Committee. The future revenue from the water system must be used only for running expenses, extension of the water system and payment of the proposed bonds and interest. It is agreed that no bonds will be issued until arrangements are concluded which will permit the completion of the proposed extension.

**We Must Have More and Better Water Now.** The only relief in sight is that now offered. If the bond issue is defeated, the wheels of progress in Jacksonville will be stopped. We cannot go forward without better water, we will inevitably go backward without it.

**Help Solve Jacksonville's Greatest Problem.** For the sake of your city, for the comfort, safety and prosperity

of your family go to the polls early next Tuesday and vote for the bond issue. Do not wait to be called for you are interested as much as any one. Ask the members of your family, your employees, friends and neighbors to vote for the bonds and vote early.

**WEDDING IN WASHINGTON**  
Washington, June 15.—One of the most notable of the June weddings in the capital took place at the New Willard this afternoon when Miss Margaret McChord, daughter of Judge C. C. McChord of the Interstate commerce commission and Mrs. McChord, became the bride of Lieut. George LeRoy Boyle, of the aviation section of the United army.

**CHILDREN'S DAY**  
AT WOODSON  
The following will be the Children's Day exercises at the Woodson Christian church, 10:30 Sunday, June 16. A special program consisting of declamations, songs and exercises, has been arranged. All are welcome to enjoy it. Please bring an offering for foreign missions. W. H. Oldham, pastor and superintendent.

**CHICHESTER'S PILLS**  
The Old Brand. Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold Metallic Boxes, sealed with Blue Ribbon. Take no others. Buy of your Druggist. Ask for CHICHESTER'S PILLS. Sold by Druggists Everywhere.

Take this Opportunity  
to Learn all about Refrigerators

THIS IS LEONARD WEEK—JUNE 17 TO 22

Make it a point to come to our store—see our special display and let us tell you all the advantages of the famous Leonard Cleanable.

For the benefit of our customers, we set aside this week to make a special display of Leonard Refrigerators. It will be your opportunity to get the inside facts about refrigerators and refrigerator construction.

We take a special pleasure in explaining the features of the Leonard Cleanable to our customers. Its many points of superiority are easy to demonstrate and to understand.

Leonard Cleanable Refrigerators have a one-piece porcelain lining made of three coats of the finest porcelain lining on a basis of Armo Rust-Resisting iron. It cannot break, crack or chip. It has rounded inside front corners—an exclusive, patented Leonard feature.

**Ten Walls Save Your Ice**

The Leonard Cleanable has ten insulated walls to keep the heat out and

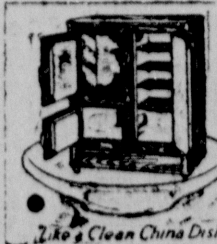

the cold in. You will note the saving in your ice bills with this refrigerator.

Moreover, the perfect circulation of air is worked out on a strictly scientific basis. The air-tight locks make the door practically self-closing.

### A Permanent Investment

A properly built refrigerator should last you a life-time. For this reason it is economy to select a refrigerator that has been made with all the skill and care of a fine piece of furniture. In brief, make your refrigerator purchase a permanent investment.

Don't fail to come in some time during the week and see the Leonard Cleanable and other models. Even though you are not planning to buy a refrigerator right now—this is your chance to see all the models and plan just what kind you need.

**Leonard  
Cleanable  
Refrigerator**  
Made in Grand Rapids, Mich.

## Fathers! Remember your first long trousers?

You probably had some very definite ideas about what you wanted; boys generally do. But you very likely had to take the long trousers suit that somebody else picked out for you.

Just remember that experience when your boy is ready for his long trousers. If you send him to us, he'll get what he wants and it will be what you want, too, because—

He'll get a Hart Schaffner & Marx "Prep" suit which is so well made of such good materials that it wears a long, long time; that saves money for you. You undoubtedly want to be as economical about clothes as you can right at this time. This store is the place for him, and for you too.

Dr. HARPER'S  
Next Visit to Jacksonville

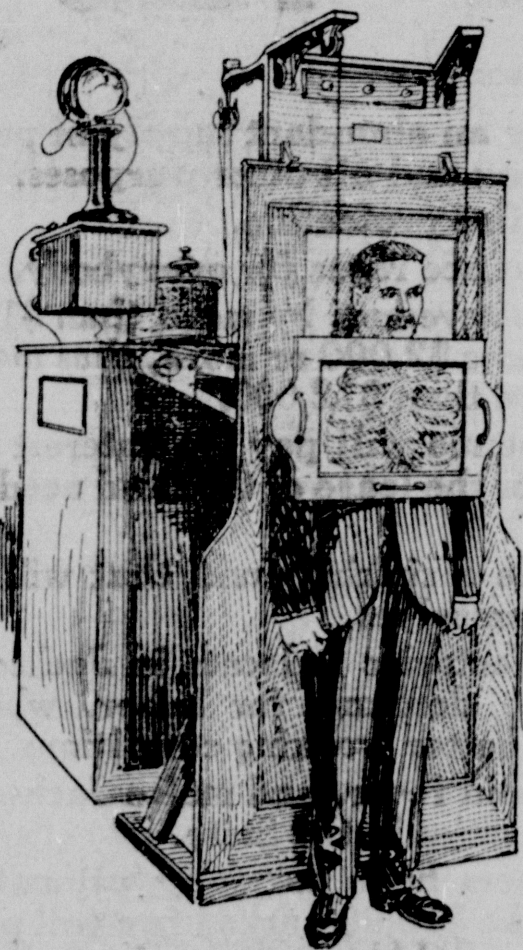

—WILL BE—

Friday, June 21  
Dunlap Hotel

Dr. Harper makes X-RAY and other examinations and gives consultation free. He can take a few more patients at this time for treatment at Jacksonville. If you are thinking of consulting Dr. Harper, do so on his next visit.

Many people who have been examined and treated by Dr. Harper during the past twelve years are bringing other members of their families and their friends, that they may find out what is the matter with them, so that they may be treated.

Dr. Harper wants to give all an opportunity to be treated. Go for an examination and treatment on Friday June 21st.

## X-Ray Examinations Free

This is the way the Lungs, Heart, Stomach and other organs may be examined by use of the big X-RAY Machine

If other treatments have failed, even if you think yourself incurable, you should not miss the opportunity of an examination and consultation which is offered to you free of charge.

## Blood, Stomach, Nerves, Skin

Do You Suffer from Any of These Diseases?

CATARRH—Hawking, Spitting, Accumulation of Mucus, Watery discharge from Stomach, Spill up Sillies, Nose Runs, Sneezes, Bad odor, Dull Headache, Catarrhal Deafness, Pains in Kidneys, Bladder, lungs or over entire body. Slimy discharge from Bowels?

STOMACH TROUBLE—Have you Stomach Pain, Belching, Lost Appetite, Bad Taste or Breath, Headache, Heartburn, Bloating, Gas, Spitting of Mucus, Grawing, Empty Feeling, Lump in Stomach, Food Disagrees, Pain Before or After Eating, Coated Tongue, Sore Mouth, Indigestion?

THE NERVES—Nervous Weakness, Jerking, Jumping, Excitable, Tired, Worn Out, Feel Like Falling When Eyes Closed and Feet Together, Restless at Night, Poor Memory, Melancholy, Despondent, Wake Up Unrefreshed, Weak Trembles, Dizzy Fainting Spells, Hands or Feet Numb, Neuralgia, Lack Energy, Strength, Ambition.

HEART—Weakness, Skipping of Beats, Fluttering, Palpitation, Pain in Left Side, Pains under Shoulder Blades, Shortness of Breath, Dizzy Sinking Sensations, Cold Feet, Swollen Feet, Throbbing or Hammering Sensation, Can't Lie on Left Side or Back, Rheumatism, Asthma?

THE BLOOD—Pimples, Blackheads, Sores, Blisters, Pale Sallow Complexion, Lips Blue, Specific Blood Poison, Eczema, Malaria, Enlarged Joints or Glands, Chills, Feverish, Run Down, Debilitated, Weak, Emaciated?

THINNESS—Underweight, Hollow Cheeks, Flat Chest, Serawny Neck, Dyspepsia, Thin Blood?

WOMEN—Weak, Tired Out, Sickly Women, suffering from the ill peculiar to the sex, find treatment prompt and wonderful in results. MEN—Are you suffering from Loss of Memory, Failing Strength, Backache, Weak Back, Shooting Pains in the Neck, Chest, Back and Limbs, Palpitation of the Heart, Restless Nights, Bad Dreams, Loss of Ambition and Mental Activity, Nervousness, Irritable Temper, Bad Blood Diseases which have been neglected or mistreated? No matter how chronic your trouble may be or how many have treated you, consult the specialist. He treats cases that appeal to him. His treatments are quick acting. Don't let modesty keep you away.

Dr. Harper treats curable diseases of the Eyes, Ears, Nose, Throat, Lungs, Stomach, Liver, Kidneys, Heart, Nerves, Brain, Blood and Skin. Catarrh of any part of the body, Bronchitis, Asthma, Consumption (in early stages), Gout, Dyspepsia, Chronic and severe Rheumatism, Scrofula, Ulcers, Eczema, Pimples, Flits, Neuralgia, Sciatica, Lumbago, Headache, Dizziness, Brain and Nervous Exhaustion and Spinal Irritation.

FROM BROOKLYN

Retain Lead in National League by Winning—New York Wins Uptown Game—Other National League Games.

Brooklyn, June 15.—Chicago took the first game of the series here with Brooklyn today by 6 to 1. The Superbas scored their only run in the fifth on Wheat's single. Myers' sacrifice, an out and Merkle's wild throw. Errors by O'Mara and Johnston, a single and Deal's triple sent the Chicago team ahead in the sixth with three runs. They scored three more in the ninth on a pass, Hendrix's single and Flack's home run drive.

Giants Win Uptown Game.

New York, June 15.—The

Giants won a sensational uptown

game from Cincinnati here today

by a score of 8 to 7. Causey, a

young local pitcher, starting his

first big league game was batted

hard and Cincinnati got a six run

lead. The score was tied in the

seventh inning when Kauff hit a

homerun with two men on base.

New York won in the ninth, Burns

doubled and reached third on a

fielder's choice. Fletcher hit a

short fly to Neale, whose throw to

the plate easily would have retired

Burns but Wingo failed to stop

the ball.

Faber Pitches His Last Game for Sox, Enlists in Navy—Ruth of Boston Hits Home Run With Two on Bases—Other American League Games

Chicago, June 15.—Washington defeated Chicago 3 to 1 today, Harper holding the locals to three hits. It was Pitcher Faber's last game for Chicago, as he enlists in the Great Lakes Naval Training Station Monday, having enlisted as a chief yeoman. With the score tied Faber fanned two in the eighth, but Shotton and Foster singled and counted on errors by Felsch and Weaver. The score:

## Cleveland Wins Again.

Cleveland, June 15.—Cleveland won again from Philadelphia today the score being 5 to 2. Adams' wildness was his undoing four of Cleveland's five runs being the result of his passes or hit batsmen. Bagby was effective except in the third round when Walker's long single followed two passes. A great one hand catch by Speaker was a feature.

## Score:

Phila. . . . 002 000 000—2 4 1  
Cleveland . . . 100 002 02x—5 8 3  
Adams and Perkins; Bagby and O'Neill.

## Detroit Wins 4 to 0.

Detroit, June 15.—Kallio shutout New York today 4 to 0 in one of the best games he has pitched this season. Pratt and Marsans were the only New

Yorkers able to hit the Detroit pitcher, each getting two hits.

Kallio struckout eight men and allowed but one base on balls.

## Score

New York 000 000 000—0 4 2  
Detroit . . . 200 000 11x—4 8 1  
Russell and Walters; Kallio and Spencer, Yelle.

## ODD FELLOWS MEMORIAL EXERCISES TODAY

Joint Services of I. O. O. F. and Associated Organizations to be Held at Central Christian Church at 3 O'clock—Address by Rev. C. G. Cantrell.

The joint memorial exercises arranged by the Independent Order of Odd Fellows and associated organizations will be held at Central Christian church this afternoon at 3 o'clock. The committee

on arrangements includes the following:—  
Deatheaage, Arthur Cobb.  
Urania No. 243—John K. Long, J. H. Campbell, I. A. Crum, Marshal T. S. Martin.  
The Odd Fellows will meet at Illini lodge at 2 p. m. and the lodge room at the same hour and march to the church. A collection will be taken in connection with the service, the entire amount to go to the Red Cross fund. Illini lodge this year has had two deaths, Urania lodge

## Story's Exchange, Real Estate Loans and Insurance

### FARM PROPERTY

Sold another good farm last week, 350 acres east of the city. Call me when you have three hours off and see some of these. Do it while other men are too busy to stop. Remember—everybody will be looking six weeks from now, and your chance will grow slim as other buyers get busy.

(A) Forty minutes drive from the city we have a beautiful country home containing two hundred acres of land thoroughly well improved. The land runs from level prairie to timber edge land with some broken pasture land near the barn. There are eighty acres of wheat, 20 acres of oats, 30 acres of corn, 30 acres of hay, balance in pasture. Nice two story house, big horse barn, cow barn, silo, garage and other buildings. Three miles to elevator, one-fourth mile to school. Price \$190.00 per acre.

No. 8. Two and a half miles from shipping point and one-fourth mile to school we have three hundred acres, level to rolling land. There are one hundred forty acres of wheat, one-half of which goes with the farm if sold soon. There is a seven room house, fair barn, both in need of repair. Price \$27,000.

(B) One hundred sixty acres an easy drive from the city, running from black prairie soil to timber edge and rolling land. Two and a half miles to elevator, one-fourth mile to school and store. Two story house, horse barn, cow barn, scales, cribs, granaries, implement shed, etc. Fine spring and concrete watering place. This is a complete home, and can be had for \$185.00.

(C) One and one-half miles from good town on C. & A. we are offering 110 acres of land with 14 buildings, all in good order, gates and fencing all good. Here is a beautiful home and a good farm for \$165.00. What do you say?

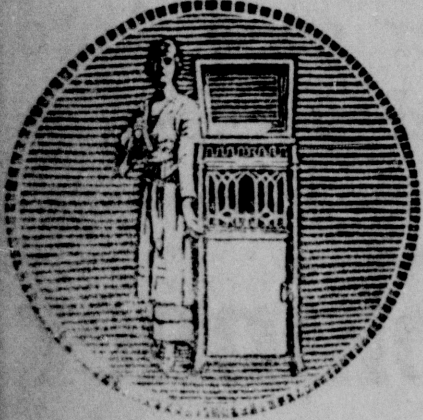

### CITY PROPERTY

(1) A nice little cottage for \$1000 — \$300 cash, balance like rent.  
(2) A five room cottage, good location, \$1850. Pay \$300 cash and \$15.00 per month.  
(3) A fine home on W. College Ave. for \$5000 on easy terms. See this one soon, if ever.

three, while Ridgely encampment, Temple encampment and Jacksonville and Carlos Rebekahs lodges are fortunate in the ability to afford no deaths. The program as arranged for this afternoon will be as follows:  
Opening Ode.  
Scripture Reading—Rev. W. E. Spoons.  
Invocation—Rev. M. L. Pontius.  
Song, America—Audience.  
Unfurling of the Flag—Warren Brookhouse.  
Song—I. O. O. F. Quartette.  
Red Cross Offering—Conducted by Rev. Spoons.  
Vocal Solo—Miss Fern Haigh.  
Odd Fellowship—What is it Doing—Rev. C. G. Cantrell.  
Song—I. O. O. F. Quartette.  
Our Honored Dead.  
Closing Ode.  
Benediction.

The deceased lodge members whose memory will be honored today are as follows:  
Illini Lodge: W. E. Knollenberg, Third Degree, initiated Feb. 1, 1887, died Jan. 23, 1918; H. H. Knollenberg, Third Degree, initiated April 21, 1857, died June 9, 1918.

Urania Lodge: Pierson Howell, Third Degree, initiated Aug. 21, 1882, died Nov. 12, 1917; Phillip Hackman, Third Degree, initiated Jan. 24, 1876, died Dec. 22, 1917; U. J. Hale, Past Grand, initiated Jan. 5, 1903, died May 27, 1918.

## MAVERICKS

### SURSUM CORDA.

Idly ye phrase it that our heroes fall!

It is a false and foolish word to say

Of such as, answering a diviner call,

Soar from earth's twilight into doubtless day.

And from the shock of our wild warfaring—

Host hurled on host, and battle's fierce annoy—

To that vast army of the Invisible King

Girl with renown, and garlanded with joy.

I seem to hear the eternal trumpet blare

Welcome sublime to these self-sacrificed;

Gordon, methinks, and Roberts, too, are there

Recurring thousands for their Captain, Christ.

Amid the ranks of saints and seraphim,—

O downward gazers, bend your glance above!

Why weep for these, if ye believe in Him

Who is the Lord of life, and King of love?

James Rhoades, London Observer.

Washington, the national capital has a water famine. No wonder if all the politicians there have substituted water for liquor and other strong drinks.

Deserves Hero Medal.

The dispatches carried a story last week of a man who lived to be 100 years old and was married 13 times. He certainly was a man of courage if not of discretion.

A good way for neutrals to avoid being drafted is to go back to their native countries. If a man likes to live here and is making his living from this country there is no reason why he should not fight for it.

Campaign Funds.

E. T. Strubinger dry candidate of the 36th district for the 51st General Assembly, has just sold another one of those fine young Angus bulls for \$150.—El Dara News in Barry Adage.

Welcome Visitor.

Prof. Jupiter Pluviosus was a visitor in our midst yesterday. His call was a most welcome one to the numerous war gardens.

Why not vote for the bond issue?

G. W. D.

SEED CORN

Plenty of Reid's Yellow Dent 1917 corn that has never shown a test less than 95 per cent. F. L. Hairgrove, No. 202 N. Prairie St. Illinois Phone No. 412.

Rev. F. E. Fletcher left yesterday morning for Springfield and other points and tonight expects to be joined by his wife and proceed to Columbus, Ohio.

## DISCUSSES ENGLAND'S INCOME TAX MEASURE

Duke of Marlborough Declares Taxation of Farmer Would Be Great National Disaster—Pays Tribute to Women Land Workers.

London, June — (Correspondence of The Associated Press)—"The British farmer is the most skillful agriculturist in the world," said the Duke of Marlborough in an interview here, discussing the new income tax measures directed against the farming classes.

"The war period has brought out the value and virtues of the British farmer as never before," continued the Duke. "The farmer has lost his skilled man, and the difficulties due to the war have made his pursuit more and more irksome, but he has made a supreme effort and the results have exceeded all expectations."

The Duke declared that over-taxation of the farmer would be a great national disaster. "The farmer is not a profiteer," he explained. "In my opinion, profiteering as applied to agriculture does not and never has existed in this country. Those who accuse the farmer of profiteering have little or no knowledge of conditions. Labor, feeding stuffs and machinery have all advanced in a manner out of all proportion to the extra profits reaped by the farmer. Today the farmer's net margin of profit on his investment does not exceed ten or twelve per cent."

"The question is, what does the government consider a legitimate profit for a man who stakes the whole of his capital on an industry in which he also expends the whole of his labor and abilities? If the government will fix that percentage, and the farmer's profits are in excess of that sum then he may be accused of profiteering, but not till then."

"In industrialism the returns on capital are higher and the risks many times less. For this reason people prefer to invest in industrial enterprises where they obtain a large return without working for it, rather than in the soil. If home grown food matters, then the profits gained from agriculture should be in relation to the profits gained elsewhere."

Women Land Workers.

The success of the British farmer's labor during the war, in the Duke's opinion, is due very largely to the loyal support of women workers. "The women land workers have toiled splendidly," he said. "They have filled the gaps on the farms, and considering that they have hitherto had no experience in agricultural pursuits they have shown an extraordinary aptitude for the work. To use a well worn statement of mine, women can supplement men but they cannot supplant them. We are not, and shall never be, an agrarian people. Our women are not fitted to toil on the land in the same way as the French, Italian and Swiss women are."

"It would be futile to suggest that the time will ever come when British farmers can hope to supply the entire needs of our population. At the best they can only hope to augment the supply in such a way that our dependence on other countries is many times less than was the case in pre-war days."

MUST REGISTER

All enemy alien females over 14 years of age must register at the police station in the city hall June 17 to 27 inclusive.

GEORGE P. DAVIS,

Chief of Police.

AN INNOVATION IN MEXICAN POLITICS

Mexico City, June.—"A square deal for everybody is the promise made for the people and industries of Tamaulipas by Professor Andres Ozuna, recently elected provisional governor of that state by the national senate after a bitter fight for the post that involved two generals and caused the revolt of one of them. The naming of a school teacher to govern a state which, because of its oil deposits, is described as the keystone of Mexico's international relations, is in itself an innovation in modern Mexican politics."

"The people of Tamaulipas expect a square deal," said the new governor, "and they will get it. The foreign interests need no special favors. They want a square deal and I'll do my best to give it to them."

Governor Ozuna in addition, to being one of the few non-military men who have held responsible governing posts in Mexico in the last decade, enjoys the added distinction of being virtually independent in his state. The new constitution for the state has not yet been formulated so it remains for the governor to designate what laws shall be enforced.

Governor Ozuna has spent eight years in the United States and was given his degree at Vanderbilt University in 1913. Since January 3, 1916 he had acted as Director General of Public Education and during his incumbency he put into effect an era of efficiency by installing the merit system for teachers, inaugurating educational reforms, cutting down the office force of his department and eliminating politics in the teaching force. These reforms were put thru and the number of schools in the republic increased greatly despite scanty appropriations.

Governor Ozuna was chosen by the national senate from among three candidates named by President Carranza. The other two were General Carlos Ozuna and General Rafael Cardenas. General Ozuna is a nephew of the new governor and will command the military forces of the state.

## UNDERSTANDING THE ENGLISH (From the New York Tribune May 22, 1918.)

At no time since the war began for us has there been a greater necessity for understanding our allies, and particularly for understanding our British ally, than at the present moment. Britain is passing thru a supreme crisis, easily comprehensible for the few Americans now alive who remember the moral crisis of 1864 in our own Civil War, but difficult of appreciation by a younger generation now just beginning to feel itself at war and roused by the emotions and by the spirit which roused Britain and France, alike, three years ago.

There has been in this country a full but not exaggerated appraisal of the contribution of France to the common cause. What France did at the Marne at Verdun and since has commanded American admiration and American sympathy. But in doing full justice to French service in the past four years, we have been and are in danger of dealing a little less fairly with our British ally than the French themselves are dealing with her.

In the present moment it is of utmost importance to remember what have been the sacrifices of Britain in the past two years. Since the opening of the Battle of the Somme, less than two years ago, nearly 2,000,000 British have been killed, wounded and captured. The casualty list of last year was approximately a million, and the costs of the present German offensive to the British have already passed the 300,000 mark. Such a tax upon the manhood of a country, such a drain upon its vital resources, can hardly be expressed in cold statistics.

In this period, too, there have been for the British the same disappointments which there were for the North in the years separating Antietam from Cold Harbor. Precisely as the people of the North saw, first with surprise and finally with unmistakable depression, the great armies which they had raised, equipped, filled with the best of their youth, fail to win a decision exactly as the North entering the campaign of 1864 with high hopes and utmost confidence, saw Grant's campaign from the Rapidan to Cold Harbor fail of its larger purpose, the British have seen a larger army, containing a vastly greater percentage of their manhood miss the decision which they expected.

Britain is meeting her disappointments as we of the North met ours half a century ago, and the Civil War was won by the political campaign of 1864, which ended in the re-election of Lincoln and the demonstration that the mass of the plain people of the North meant to fight it out to victory. The same spirit is unmistakable in England now. The disappointments are real, the disillusionments are patent, the burden of the war is provoking the same complaints which were heard in the North after the Virginia campaign of 1864 had led to the bloody shambles of Cold Harbor, after the indecisive slaughter of Spotsylvania and the Wilderness.

And in consequence, of all moments, this is the one in which it is necessary that the British should feel our sympathy and our confidence, having at home, the sole value of criticism now or at any other time must be to eliminate apathy, to abolish incompetents and to arouse new effort—and in all these respects the British press and the British people are performing their tasks to the utmost.

It is for us, in America, newly roused to the gravity of the present crisis, with strength still unshaken, still happily freed from the weight of a blood tax measured by hundreds of thousands of lives, to see to it that we contribute nothing to depressing and even more to heartening our ally, who must still do work which we could and should have performed had we awakened to the demands of duty promptly. Only a German purpose can be served now by criticism, criticism of those who are doing their best at frightful cost and under the most disheartening of all circumstances—an unexpected defeat.

The alliance between Britain, France and the United States is not merely or primarily an arrangement of expediency limited in its life to the years of the war. It is already plain that if it serves the immediate purpose it must serve an even greater purpose by bringing about a permanent association founded on mutual respect, common ideals and the enduring task of defending our civilization against German dangers which will not end with the close of the war and may be as acute as ever in a few years after peace is restored.

Our men are on their way, but they cannot arrive in time to take over any considerable share of the burden of this year's campaign. The great cost of this German offensive has been borne by the British. Alarmed by French devotion and promptness, the British have for the moment checked the rush, but there is certain to be a new flood and a new crisis. And it is for us, who cannot much aid in checking this, to demonstrate utterly to our British ally our confidence, our sympathy, our enduring and generous understanding of what the effort and the spirit are and how terrific is the cost in the best lives of a manhood already heavily taxed.

All that we most care for in the present and the future depends upon the preservation of the alliance not merely of arms, but of sympathy between the three great peoples now engaged as

allies in Picardy and Flanders. And of these three, we, who are the richest in men and treasure, are so far doing the least. Criticism from us now is not alone undeserved, but unworthy. And upon such criticism the German will seize to make propaganda both abroad and at home.

The war is to be won only by the unselfish, uncompromising and undoubting efforts of the three great nations now fighting upon the Western front. Today as yesterday the heaviest weight of the storm is upon the British, tomorrow we may take some of the burden off, the burden of attack, but not now, when all depends upon the holdings of the Bre, there must be and there should be an effort on the part of every American to make those who at the risk of life are holding it, shedding their blood without stint and without hesitation, realize how deep is our sense of obligation to them and how unqualified our confidence and our admiration.

Mrs. James Flynn of South West street has received a card announcing the safe arrival of her son, Private Edward Flynn, Somewhere in France.

## IT'S TRUE

Maxwell cars went up \$80.00 March 1st but now when other cars advance from \$100 to \$200 we can save you money on a Maxwell car, for we will have no more advances this season.

Now is the time when you need a car for business, for pleasure, then why not buy while I have a few left? There is no scarcity in gasoline so you need not worry about that. Maxwell cars are gas savers.

# Men and Women Vote for Water Bonds Tuesday, June 18, 1918

We ask every voter, BOTH MEN AND WOMEN, to be at the polls early and to

## VOTE YES

For the following reasons:

1. It will give the city an abundant supply of pure water, suitable for drinking and all other purposes.
2. It will give better fire protection.
3. It will reduce insurance rates for everybody.
4. It will increase the revenues by more than \$10,000 and reduce the expenses \$2,000 or more, thus making a yearly profit of more than \$12,000.
5. This increased revenue will pay the interest on the bonds, and also pay for the lease of the land needed for the reservoir.
6. It will also provide a sinking fund that will in time pay for the bonds themselves.
7. It will encourage factories to locate in Jacksonville thus increasing the demand for labor, which means better wages and better working conditions.
8. It will banish typhoid fever, and make Jacksonville one of the healthiest cities in the State.
9. Competent engineers have carefully estimated the costs, and show that the \$75,000 asked for will provide a fourteen foot dam, making a reservoir containing 500 million gallons, and also an adequate spillway; and also a complete filtering plant, making the water fit for drinking purposes.
10. All contracts under these bonds will be made only with the approval of the Citizen's Committee.
11. No bonds will be sold until the money is actually needed, and until the way is clear to begin actual construction.

## DR. CARSON

### Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap hotel, Jacksonville, Illinois, Wednesday, June 18, 1918. One day only. (Returns every 28 days.) Hours, 8 a. m. to 4 p. m.

Seventeenth Successful Year in Jacksonville. Consultation and Examination Free

Dr. Carson makes a specialty of the treatment of Chronic and Nervous Diseases of both sexes. His extensive practice has made him so proficient that he can successfully treat chronic diseases. This is why he has continued his visits year after year. You should consult him if you have any Chronic Disease. A Specialist who has made a lifetime study of such diseases is certainly prepared to give you the best results, and if you are sick you need scientific treatment.

I invite you to call and investigate my Method of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern up to date methods of treating disease are what you need.

Dr. Carson treats Diseases of the Eye, Ear, Nose, Throat, Lungs, Heart, Blood, Skin, Nerves, Stomach, Liver, Kidneys, Intestines, and Bladder; Catarrh, Ringing in Ears, Deafness, Paralysis, Neuralgia, Epilepsy, Headache, Gout, Rheumatism, Appendicitis, Gravel and Rheumatism.

**PILES, FISTULA, FISSURE and OTHER RECTAL DISEASES TREATED WITHOUT SURGICAL OPERATION**

"On Sept. 5, 1916, I had a chemical analysis made of my urine in a Chicago laboratory and found that I was in the beginning of serious kidney trouble. Had treated with other doctors with no benefits. Have taken treatment from Dr. C. W. Carson, the Chicago Specialist, and for months the chemical analyses have shown no kidney trouble whatever, and my kidneys and general condition have improved wonderfully. Am as strong and can do as much work as I ever did." (Signed)

Frank Smith, Woodland, Ill.

## When You're in Doubt—Ask Me

Does your battery need charging?

Does your battery need water?

Do connections need tightening? Are you sure that your battery is being kept right up to maximum efficiency?

If you don't know, ask me. Three minutes' test will tell you what is needed; may add weeks of useful life to your Willard Battery.

Ask, while you're here, about the Still Better Willard with Threaded Rubber Insulation.

Mrs. W. M. Berry returned from a week's visit in Peoria.

Mrs. Jane Coe of Springfield attended the funeral of her father, J. C. Elliott Wednesday.

**JACKSONVILLE RED CROSS KNITTERS, PLEASE NOTICE**

All knitters having yarn from the Red Cross Shop are reminded that the present quota of 1200 sweaters must be completed and shipped by June 25th. All those having grey and khaki yarn are asked to finish their sweaters immediately.

We are now knitting on quotas which means that a definite number of garments must be knitted and shipped on time, and that one quota must be finished before work can be begun on another. Knitters are urged to feel a personal responsibility in knitting up Red Cross yarn quickly and turning in the garments so that the Committee can make regular weekly shipments.

Less than five hundred of the quota of 1200 sweaters are now in and the Committee urges that those having yarn to push the sweaters to completion at once. Morgan county must meet its quotas of knitted garments promptly.

Knitting Committee.

Some more work to do the reward will be heaven. And life is fine at eighty seven. He has voted for eleven candidates for President beginning in 1852 for General Scott and hopes to round up a full dozen (12) by voting four our good Governor Frank O. Lowden.

IN USE FOR OVER 30 YEARS  
Always bears the Signature of *Chas. H. Fletcher*

Cut Worms: Cut worms have done a great deal of damage to the corn crop, especially on sod fields. Nearly all of the adviser's reports have indicated this damage. Sometimes it has been necessary to re-plant the field of corn. Some damage has also been done to soy beans planted in such fields.

Shallow Versus Deep Planting of Corn: "Shallow versus deep corn planting, is very effectively demonstrated in two fields in Peoria county. A father and son picked all of their seed from one field last September, dried it thoroughly with heat in the same room, and divided it this spring. Each planted 40 acres. The son reported a 90 per cent stand. The father reported only one hill out of 10. The only difference was that the young man planted his seed about one inch deep, while the father planted nearly three inches deep. This lesson cost the father an extra \$100.00 worth of State Council Corn."—Hedgecock.

White Face Disease: A few cases of poisoning of stock running on Alsike Clover have been reported. Horses, cattle, hogs and sheep are all susceptible. The effects seem to be variable. Sometimes there is bloating, sometimes slobbering and the eyes often become sore, in which case the trouble may be mistaken for "Pink Eye." Alsike Poisoning should not be confused with "White Face Disease," which is a blistering of the skin of white faced horses or cattle, or of white pigs or spotted pigs, when such animals feed in tall wet pasture grass during bright hot sunshine. This latter disease is a blistering of the non-pigmented skin brought about by the moisture and the hot sunshine on a bright day, especially after a few cloudy days preceding.

Sweet Clover Inoculation: The value of Sweet Clover inoculation is clearly shown in a field near Dwight. A small portion of the seed was inoculated. The crop now has a great many yellow plants, thru which are sprinkled a number of plants of dark green color. Investigation showed that there were no nodules on the roots

## CITY ELECTION

### 16 Precincts Voting

#### AN ORDINANCE.

Authorizing the Calling of a Special Election for the Purpose of Submitting an Ordinance for the Issuance of Water Works Improvement Bonds to the Voters of the City of Jacksonville, Illinois.

Be it ordained by the city council of the City of Jacksonville, Illinois:

Section 1. That a special election is hereby called for the purpose of submitting to the legal voters of the city of Jacksonville, Illinois, the question of approving an ordinance of the City of Jacksonville, entitled, "An Ordinance Providing for the Issuance of Water Works Improvement Bonds to the amount of \$75,000.00 and Providing for the Payment Thereof."

Section 2. That the question of issuing bonds be submitted to the legal voters of said city of Jacksonville at a special election which is hereby called for that purpose to be held on the 18th day of June, A. D. 1918.

Section 3. That the city clerk is hereby instructed to prepare and have printed an official ballot for use of such election, which ballot shall be in the following form, to-wit:

Shall bonds or obligations for the purpose of improving the water works system of the city of Jacksonville in the sum of \$75,000.00 be issued by the city council of the City of Jacksonville, Illinois? (Vote Yes or No.)

Section 4. That the several voting places at which said special election shall be held shall be as follows:

In the First precinct of the First ward, Tobin's store, 1104 East Lafayette avenue.

In the Second precinct of the First ward, Eugene Kettering building, on North Mauvaisterre street.

In the Third precinct of the First ward, Sheppard store room, 640 North Main street.

In the Fourth precinct of the Second ward, Mrs. W. L. Brown's residence, 345 West Independence avenue.

In the Fifth precinct of the Second ward, Mrs. Cogswell's residence, 349 North Caldwell street.

In the Sixth precinct of the Second ward, Briggs' store room on Pine street.

In the Seventh precinct of the Second ward, David Prince school building.

In the Eighth precinct of the Fourth ward, Graphic Arts building, West Morgan street.

In the Ninth precinct of the Fourth ward, Mrs. Danksin's residence, 850 West College avenue.

In the Tenth precinct of the Fourth ward, I. N. Kelly residence, 549 South Diamond street.

In the Eleventh precinct of the Fourth ward, James Ball residence, 803 South Church street.

In the Twelfth precinct of the Fourth ward, county voting building, corner Fayette and Grove streets.

In the Thirteenth precinct of the Third ward, county jail building, South Mauvaisterre street.

In the Fourteenth precinct of the Third ward, Boston grocery store, East College avenue.

In the Fifteenth precinct of the

Third ward, Victor Bergstrom residence, 630 Hardin avenue.

In the Sixteenth precinct of the Third ward, Phelps residence, 1103 South East street.

Section 5. The polls of such special municipal election shall be open on said date from the hour of seven (7) o'clock in the morning until five (5) o'clock in the evening.

Section 6. The following persons are hereby appointed judges at said special municipal election, to-wit:

In the First precinct of the First ward, Mary Shields, Patrick Tobin, J. W. Baptist.

In the Second precinct of the First ward, William Shibe, A. W. Becker, Amos May.

In the Third precinct of the First ward, Alice Coons, J. W. Clancy, Elsie Baptist.

In the Fourth precinct of the Second ward, Ada Smith, Joseph Gomes, Louis Leurig.

In the Fifth precinct of the second ward, Mildred Cogswell, Sadia Goveia, L. F. Jordan.

In the Sixth precinct of the Second ward, Katherine Bronson, Elizabeth Marks, John Sheppard.

In the Seventh precinct of the Second ward, Mabel Vanier, George Wiseman, A. B. Williamson.

In the Eighth precinct of the Fourth ward, Kate Hollinger, Charles Elliott, Howard Underwood.

In the Ninth precinct of the Fourth ward, Lillian Danskin, Hugh Green, R. P. Joy.

In the Tenth precinct of the Fourth ward, Elizabeth O. Carter, A. D. Fairbank, Frank P. Vickery.

In the Eleventh precinct of the Fourth ward, Velma Rowland, C. J. Roberts, Kate Butler.

In the Twelfth precinct of the Fourth ward, Eva Green, W. H. Dalton, W. H. Parrish.

In the Thirteenth precinct of the Third ward, Anna M. Baldwin, R. L. McCullough, Charles Grady.

In the Fourteenth precinct of the Third ward, May Singley, J. F. Kellogg, Florence Cobb.

In the Fifteenth precinct of the Third ward, Sadie Bayha, W. W. Ewing, J. W. Catherwood.

In the Sixteenth precinct of the Third ward, Margaret Boston, J. M. Donovan, Otto Muehlhausen.

Section 7. The manner of printing and distributing ballots, the keeping of the poll books and list and the canvassing of the votes shall in all respects be the same as nearly as may be as in the case of a general election. After the close of the polls, the ballots shall be counted and the result declared, and returns made under seal to the city clerk within two days after said election as provided by law.

Section 8. The city clerk is hereby authorized to cause ballots to be printed and distributed and is instructed to give at least twenty (20) days public notice of the election herein provided for as provided by law.

Passed at a regular meeting of the city council held this 20th day of May, 1918. Approved this 20th day of May, A. D. 1918.

H. J. RODGERS, Mayor.  
Attest: R. L. Pyatt, City Clerk.

## Morgan County Farmers' Club Notes

(By George B. Kendall, County Agent)

Cut Worms: Cut worms have done a great deal of damage to the corn crop, especially on sod fields. Nearly all of the adviser's reports have indicated this damage. Sometimes it has been necessary to re-plant the field of corn. Some damage has also been done to soy beans planted in such fields.

Shallow Versus Deep Planting of Corn: "Shallow versus deep corn planting, is very effectively demonstrated in two fields in Peoria county. A father and son picked all of their seed from one field last September, dried it thoroughly with heat in the same room, and divided it this spring. Each planted 40 acres. The son reported a 90 per cent stand. The father reported only one hill out of 10. The only difference was that the young man planted his seed about one inch deep, while the father planted nearly three inches deep. This lesson cost the father an extra \$100.00 worth of State Council Corn."—Hedgecock.

White Face Disease: A few cases of poisoning of stock running on Alsike Clover have been reported. Horses, cattle, hogs and sheep are all susceptible. The effects seem to be variable. Sometimes there is bloating, sometimes slobbering and the eyes often become sore, in which case the trouble may be mistaken for "Pink Eye." Alsike Poisoning should not be confused with "White Face Disease," which is a blistering of the skin of white faced horses or cattle, or of white pigs or spotted pigs, when such animals feed in tall wet pasture grass during bright hot sunshine. This latter disease is a blistering of the non-pigmented skin brought about by the moisture and the hot sunshine on a bright day, especially after a few cloudy days preceding.

Sweet Clover Inoculation: The value of Sweet Clover inoculation is clearly shown in a field near Dwight. A small portion of the seed was inoculated. The crop now has a great many yellow plants, thru which are sprinkled a number of plants of dark green color. Investigation showed that there were no nodules on the roots

of the yellow plants while the green ones had a great many nodules on their roots."

Red Clover: Red Clover gives promise of seed from the first crop in many counties. The Crop Production Division reports that prospects are still good for a seed crop on the University fields.

Smut in Oats: Smut in oats in southern Illinois is generally not considered by the farmers to be very general, yet all men who have treated oats are well satisfied that it paid. Those that check strips have remarkable demonstrations. I have seen one untreated field which contains 37 per cent smut.

Fake Hog Cholera Remedy: Selzes so-called hog cholera remedy. Selzes of sixty-two cases of a so-called hog-cholera remedy in Iowa and North Carolina upon order of the Federal Courts mark a determined effort on the part of the United States Department of Agriculture to stop interstate traffic in so-called hog cholera remedies which do not cure, prevent nor control this disease which has such an important bearing on the Nation's pork supply. The seized goods are now in the custody of United States Marshals pending action under the Food and Drugs Act. The Government charges that this remedy will not prevent or cure hog cholera, as claimed on the labels of the seized products.

Care of Work Horses: The farm work team deserves especial care at this time of year. We say a great deal about man labor on the farm but we should by no means forget the work horse. The prospects are good for bumper crops and the farm team should be in the best of condition to handle the work. The horse should never be allowed to go thirsty and the best results will be obtained by accustoming him to drink mostly before eating. He should be fed good clean hay and oats, with the largest feed of hay at night. A good teamster will also see that the collar and harness fit properly. He will keep them clean and in hot weather will daily bathe the shoulders with salt and water, or with a solution of lead acetate

to prevent blisters and harness sores. The horse is our chief farm power during the hot weather and should receive the most consideration and care in order to make him efficient.

Farm Labor: The Boys Working Reserve has had an unprecedented call for boys during the last two weeks. The late corn planting season and the heavy hay crop, together with the recent draft call, has greatly increased the demand for farm labor. As a result over 15,000 boys have been placed on the farms of Illinois. Most of these are recorded by the Boys Working Reserve. This will prove an immense help to the farmers during the rush season.

The Labor Administration: The labor administration has been very successful in enrolling the business men of the towns for a few days work on the farm during

hay and harvest. This will do a great deal toward taking care of the work on the farm during the period of "peak-load" of harvest.

#### THE RAIN YESTERDAY.

Yesterday morning a refreshing rain fell and while not nearly enough it did much good. It was not wholly general but reached a good many points. A man started from Chandlerville and had to have a team haul his auto to Virginia and finish his trip by rail.

Lynnville, Woodson, Alexander, Arcadia, Sinclair and several other parts fared well. It was not so good at Chapin, Meredosia, Franklin and Murreysville but the last two had some.

Southwest of the city there must have been something akin to a cloudburst as the lake in Nichols park was raised away out of its banks overflowing the floor in the ladies' bathhouse sixteen

inches. Some wheat was beat down but not a great deal. One man said he feared the heavy wheat that was down would hardly get up but the south lead will better a lot to stand prostration.

#### RECEIVED SOUVENIRS

FROM OVER THERE

Miss Lucile Pyatt has received from her uncle Rev. Lynn Pyatt in France two silk collars, a Joan of Arc pin and a fragment of German high explosive shell. Rev. Mr. Pyatt has been in France for some time and has been close to the battle front. It is needless to say that Miss Pyatt greatly prizes the souvenirs.

IS AN OPTIMIST

Today, June 16th is the 89th birthday of Edwin White of the Old People's Home. He says he old age life has it lure. It is good to be alive and heaven is sure.

## NEW WIRTHMOR WAISTS

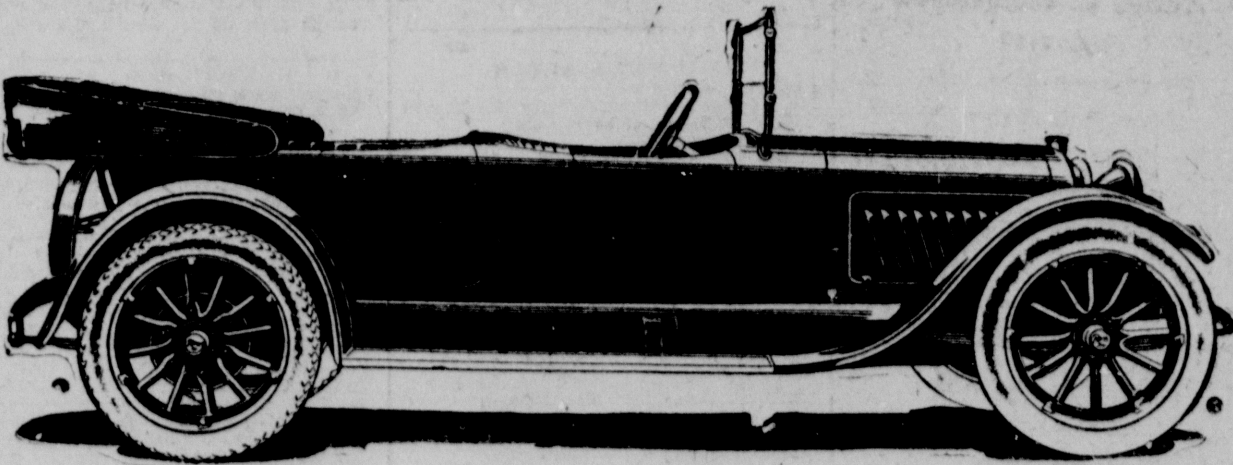

SOLD HERE ONLY

Incredible though it seems, it is still possible to buy a correctly-styled and thoroughly desirable Blouse for JUST \$1.00

The Wirthmor that we — and we alone in this city — can sell at this small sum — combines all the worthwhile characteristics of Blouses generally sold at considerably higher prices.

## ECZEMA CAN BE CURED

### Free Proof To You

All I want is your name and address so I can send you a free trial treatment. I want you just to try this treatment—that's all—just try it.

I've been in the drug business in Fort Wayne for 20 years, nearly everyone knows me and knows about my successful treatment. Over six thousand five hundred people outside of Fort Wayne have, according to their own statements, been cured by this treatment since I first made this offer public.

If you have Eczema, Itch, Salt Rheum, Ytter—never mind how bad—my treatment has cured the worst cases I ever saw—give me a chance to prove my claim.

Send me your name and address on the coupon below and get the trial treatment I want to send you FREE. The wonders accomplished in your own case will be proof.
